EDWARD F. BERINSTEIN

The students
of the Faculty of Medicine
dedicate this Yearbook
to

Dr. Bruce Chown

M.C., B.A. (McGill), M.D. (Man.),
Hon. D.Sc. (Man.), S. M.

DR. BRUCE CHOWN,

M.C., B.A., M.D., HON. D.Sc., S.M.

Dr. Chown, whose father was the first Dean of Medicine in Manitoba, was born in Winnipeg in 1893. He graduated from McGill with a B.A. in 1914 and then served in the First World War. Returning to Manitoba, he received his M.D. in 1922. His postgraduate studies took him to Columbia, Johns Hopkins and Cornell. He returned to Winnipeg in 1926 as pathologist to the Children's Hospital, and later became Superintendent of the hospital. In 1950 he became full Professor of Paediatrics at the University of Manitoba, the first full time Professor of Paediatrics in Canada.

In his scientific career, has has been author or co-author of 116 papers. One hundred of these have appeared since his fiftieth birthday.

Dr. Chown is best known for his work in the study of blood group incompatibility including the Rh group. Over the years he assembled a group including Miss Marion Lewis, Drs. W.D. and J.M. Bowman, Dr. David Grewar, and others to launch a programme for early detection and prompt effective therapy for all affected babies of Rh-mothers in Manitoba. Such a programme is unique in North America.

Dr. Chown returned from World War I with a Military Cross. He was Senior Stick in Medicine in 1922 and was the first Honourary President of the Manitoba Medical Students' Association. On receiving this honour, he presented to the M.M.S.A. a gold headed cane that had belonged to his father. Dr. Chown received an honorary degree from the University of Manitoba, (D.Sc.), and the Centennial Scientific Award in 1967. He received the principal Gairdner Award in 1968.

As a tribute to a medical lifetime of service to the Children's Hospital, the University of Manitoba, and to medical science everywhere, the Children's Hospital and the Department of Paediatrics of the University of Manitoba honoured Dr. Bruce Chown on October 10th, 1968 on the occasion of his approaching 75th birthday.

It is fitting that one who has contributed so much to his University and to the community should be honoured in his lifetime. The large attendance of colleagues, former pupils and residents from all over Canada and parts of the U.S.A. provided ample evidence of the affection and esteem in which Dr. Bruce Chown is held.

Dr. Harry Medovy,
Professor and Head,
Dept. of Paediatrics,
University of Manitoba

DEAN'S MESSAGE

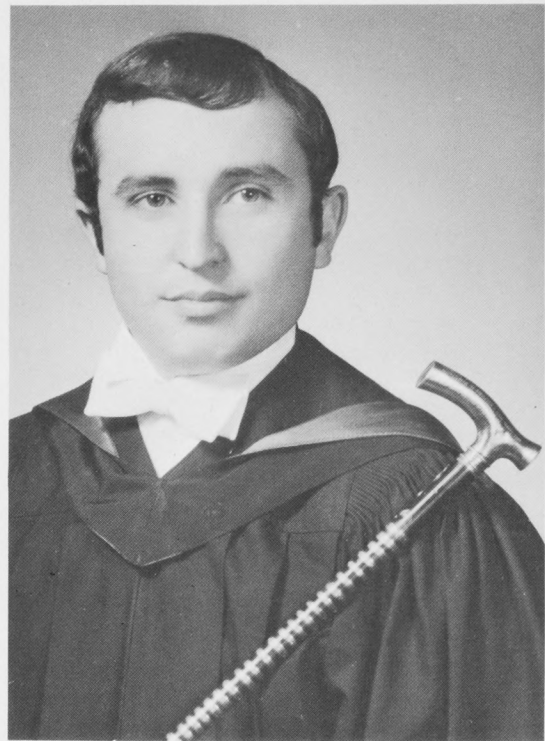

In this foreword I should like to congratulate the Manitoba Medical Students' Association on the publication of the third medical yearbook. The two previous volumes met with very great success and I am sure that this yearbook will be treasured by the members of the class of 1969 for many years to come. This volume represents much hard work on the part of many members of the student body and they deserve our commendation for their efforts.

The dedication of this yearbook to Dr. Bruce Chown is singularly appropriate. This distinguished scientist and faculty member has contributed a very great deal to the Faculty of Medicine and the Province of Manitoba during the past half century. In the past year Dr. Chown has reached the age of seventy-five years and has been awarded many honours. Not the least of these will be the dedication of this yearbook to him and the students should be congratulated for making such a wise choice.

By the time this yearbook is published the class of 1969 will have completed the first phase of their medical education. They will have left the Faculty to take up internships in many of the finest teaching hospitals on this continent. They will be entering the medical community at a most exciting period, when medical knowledge is increasing at an ever more rapid rate and when new social measures are being introduced to provide health care to the people of Canada. At this time it is most important that the habits of study and self-education that have been learned in the past four years be maintained. We, in the Faculty, have every confidence in you and wish you the very best in the future.

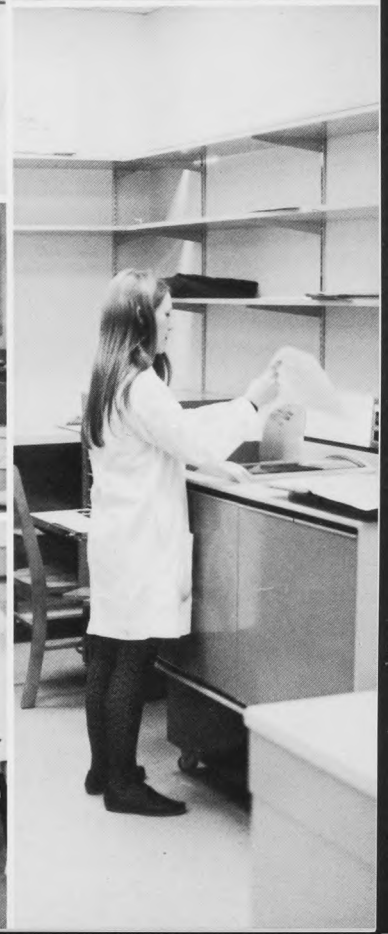

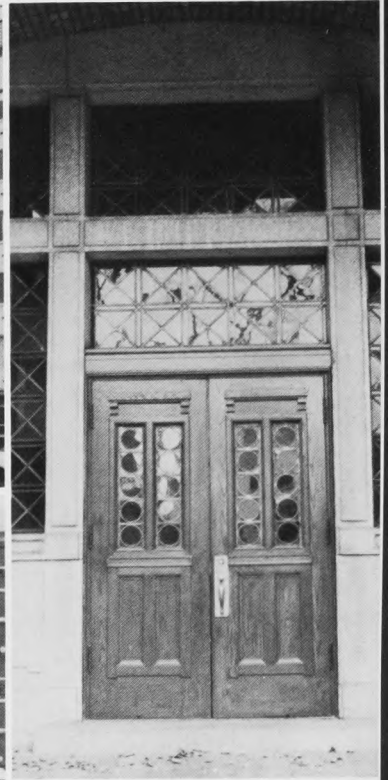

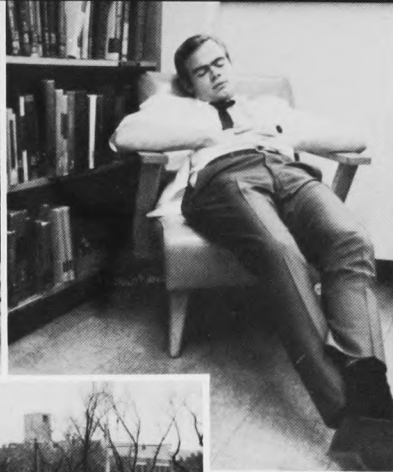

T.W. Fyles, M.D.,
Dean, Faculty of Medicine

SENIOR STICK'S MESSAGE

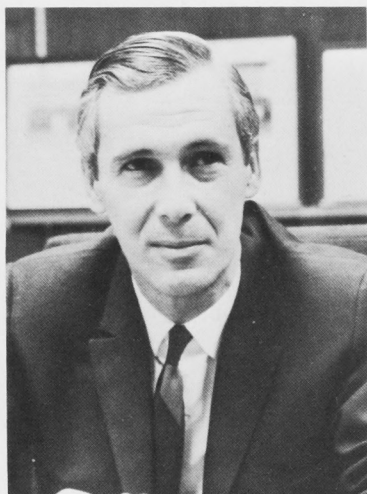

The journey towards an M.D. is an arduous adventure. Becoming engaged to a new form of life, the medical student makes his descent upon the Medical College. Very soon he finds himself in an attitude of flexion. . . .head flexed to the written page, knees and hips flexed to the form of the chair. He plunges head first into his work, seeing little of the world beyond and feeling as though he is deeply buried in an endless passageway. The restless activity of his mind and of his intestines can best be described as internal rotation. Progressively laboring through his first years, (often needing a push from someone who cares), the medical student suddenly reaches the magical day when he enters the hospital. Extending his head to the world, his life now begins to gain some form of direction. This is his restitution. His thoughts undergo an external rotation as he becomes more aware of those around him, and he extends himself to interests outside Medicine. Now his body slides into stride down the hospital corridors. He can sense the importance of the future. Then it happens. He is officially born to a new world. Proudly receiving his M.D. he knows that the cord has been cut, and now he must begin to work to prove his worth to those who dedicated themselves to deliver him to his moment. With pleasant memories he heads out toward the future. . . .knowing that he has just completed the second most difficult journey of his life.

Calvin Gutkin,
Senior Stick, 1968-69.

Academics

B.Sc. (MED.) ORAL

AUGUST

Andy Wozney replies to a barrage of questions.

Murray Vann discusses the metabolism of mitochondria in skeletal muscle.

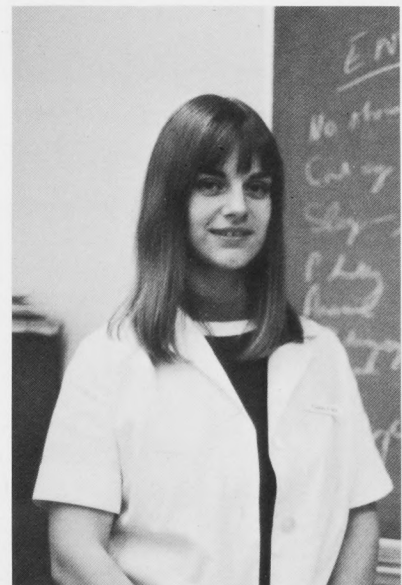

First year students in the program get a glimpse of what is to come.

The B.Sc. (Med.) program gives undergraduate medical students a chance to participate directly in research. A wide field of topics is offered covering basic sciences and clinical investigation. Besides the opportunity to learn in their chosen field, they can make new friends and can attend the crash course in biostatistics offered by Dr. Stevens.

After two summers of working in laboratories or on the wards, the B.Sc. (Med.) students compile their findings and present them orally. They are required to discuss the methods, problems and findings in a few minutes and to defend them from the questioning of the faculty and their peers. Their presentation along with their written thesis is evaluated by the B.Sc. (Med.) Committee before the B.Sc. (Med.) degree is recommended.

Shown here are a few glimpses of this year's presentations.

Fran Wilt's presentation on "Tumor Immunity" was superb.

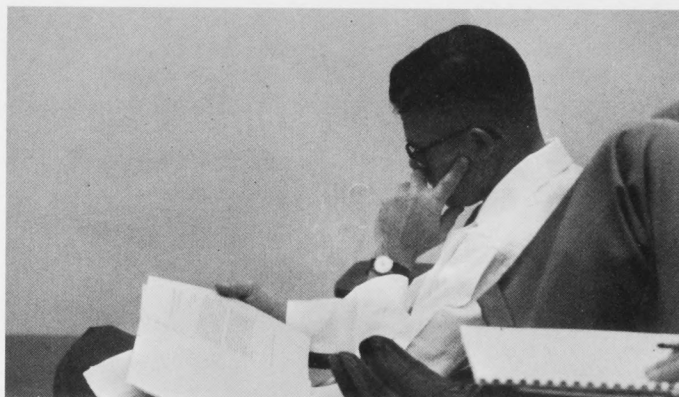

PRESENTATIONS

1968

SPEAKERS:

Craig Beattie
Jim Beckstead
Armand Boisjoli
Bill Bowie
Yuen Wan Choi
Tom Choy
Cliff Corman
Bill Fumerton
Allan Guberman
Calvin Gutkin
Garry Krepart
Ken Kristjanson

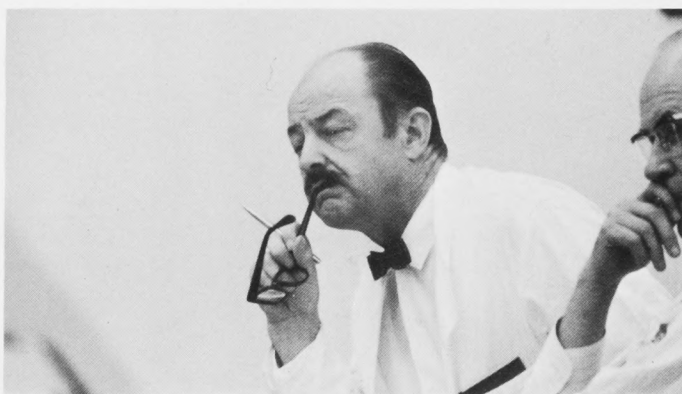

Ross Rigby
Garry Rodin
Ed Rotstein
Jack Rusen
Owen Schwartz
Lytton Smith
David Starr
Bob Thiessen
Murray Vann
Fran Wilt
Andy Wozney

Dr. Thompson scans the abstract.

BEST PRESENTATION:

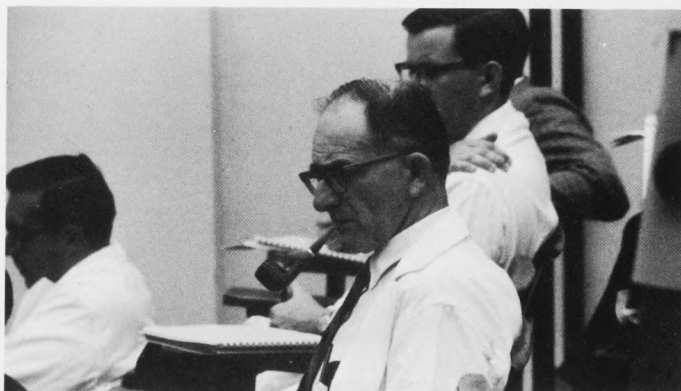

Fran Wilt: The best presentation.

Dr. Wilt thoughtfully examines the presentations.

"Could you please repeat question one Dr. Cherniack?"

Dr. Hildes calmly waits for an answer.

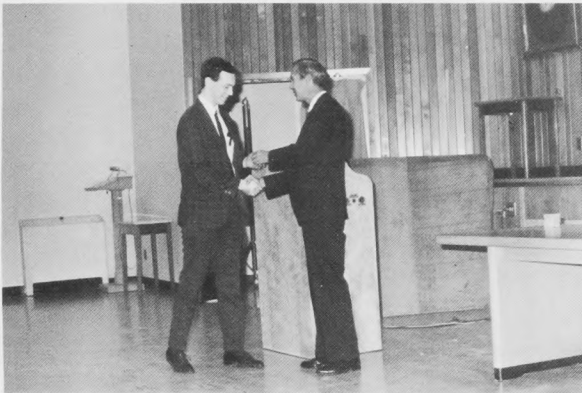

INAUGURAL EXERCISES

Dean Fyles welcomes students entering Medicine.

Cal Gutkin claiming, "Medicine can be fun."

Lionel Bercovitch receives the medal in Pharmacology.

The medal in Pathology is presented to Frank Manning.

Students entering Medicine recite the Hippocratic Oath for the first time, while the professors reflect on the pledge they made years ago.

Hippocratic Oath

Declaration of Geneva (1948)

Now being admitted to the profession of Medicine, I solemnly pledge to consecrate my life to the service of humanity.

I will give respect and gratitude to my deserving teachers.

I will practice medicine with conscience and dignity. The health and life of my patients will be my first consideration.

I will hold in confidence all that my patient confides in me.

I will maintain the honour and noble traditions of the medical profession. My colleagues will be my brothers.

I will not permit consideration of race, religion, nationality, party politics or social standing to intervene between my duty and my patient.

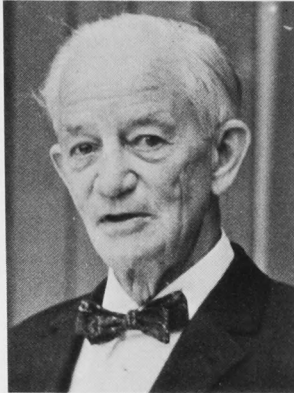

I will maintain the utmost respect of human life from its conception.

Even under threat I will not use my knowledge contrary to the laws of humanity. These promises I make freely and upon my honour.

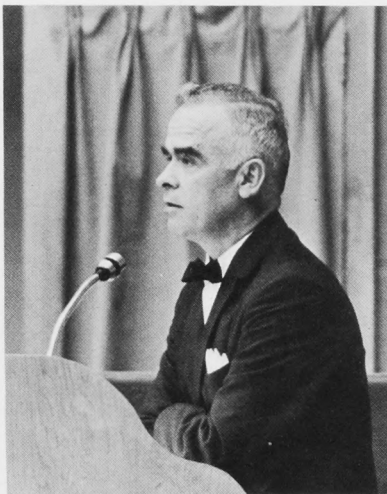

THE BRUCE CHOWN

OCTOBER

Dr. Bruce Chown

On the occasion of his seventy-fifth birthday, the Department of Paediatrics and the Children's Hospital of Winnipeg proclaimed a Scientific Day honouring Dr. Bruce Chown. Visiting professors including Dr. Irving Schulman from the University of Illinois, Dr. J.P. Tizard from the Hammersmith Hospital, London, England, and Dr. Alvin Zipursky from McMaster University attended to participate in the discussions and pay their respects to Dr. Chown. The topics discussed focused around Rh immunization and hemorrhagic disease in the foetus; subjects which have interested Dr. Chown for most of his life and for which he has become world famous. It is realized that this honour could in no way match the dedication shown by Dr. Chown in the quest for new blood group systems.

Dr. W. Bowman opens the Scientific Day

Dr. Harry Medovy gives the opening address honouring Dr. Chown

Miss Marion Lewis lectures on the "Blood Group Antigens and Systems"

Dr. Chown is made a member of the Order of the Buffalo Hunt by Dr. George Johnson

SCIENTIFIC DAY

1968

The panel discusses "Recent Advances in the Management of Rh Immunization"

The speakers held the audience's attention throughout the day

Dr. Schulman from Chicago describes "Hemorrhagic Disorders of the Neonate"

"The Development of Infants Following Intrauterine Transfusion" was Dr. K. McRae's topic

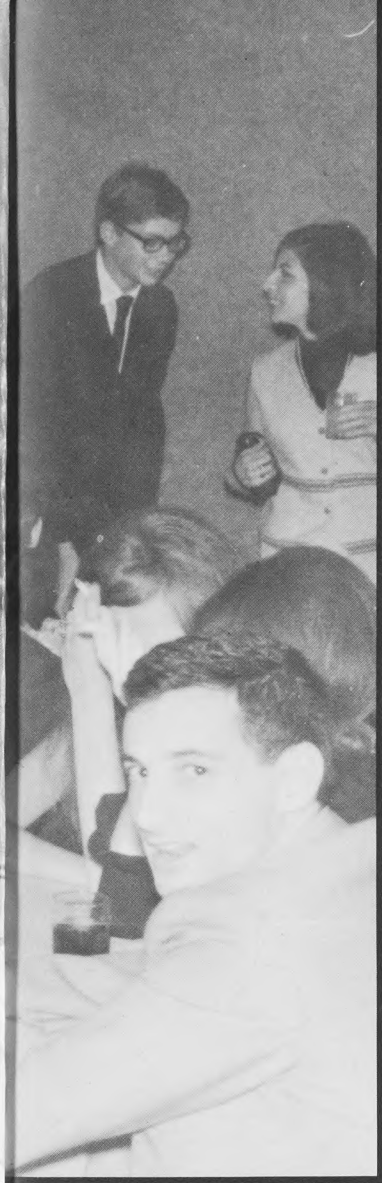

An excellent presentation on "Rh Antibodies and the Destruction of Red Cells" was delivered by Dr. Zipursky

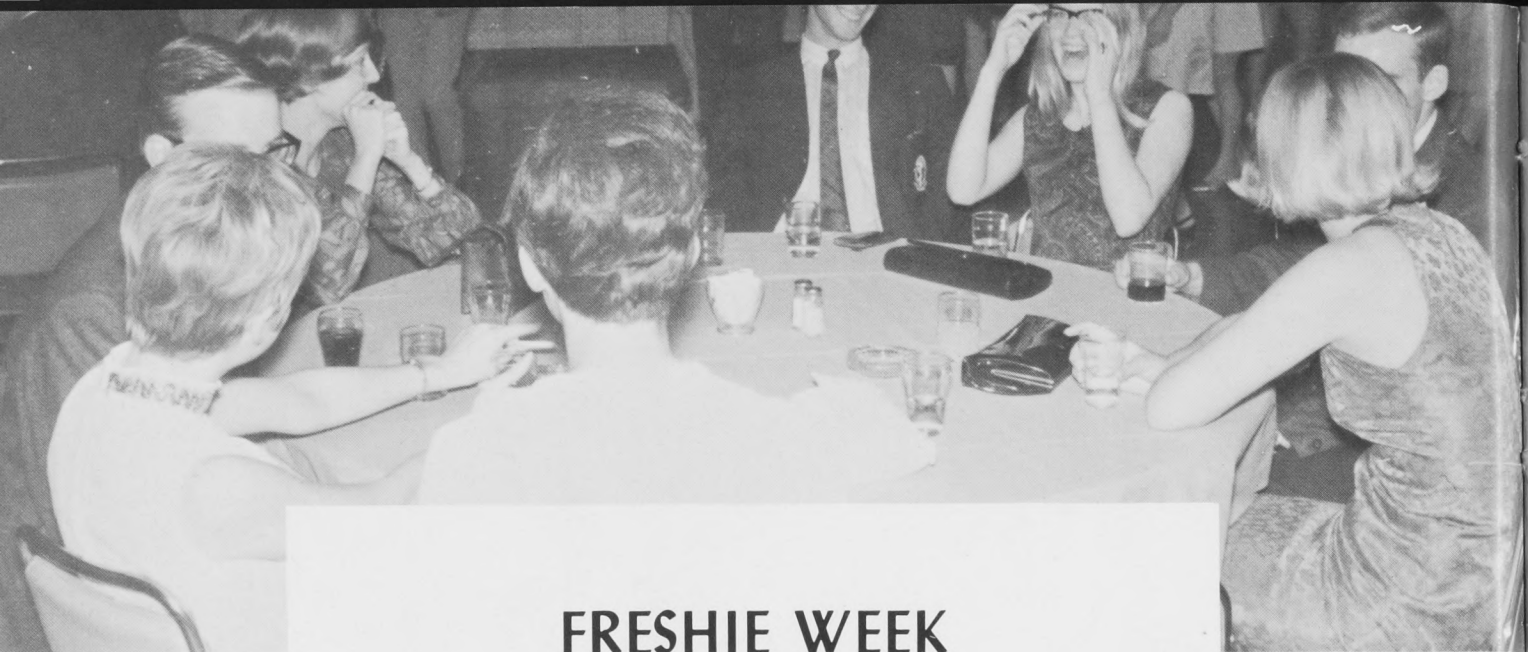

Dr. Chown chats with former student, the Hon. George Johnson, Minister of Health and Welfare

Events

FRESHIE WEEK

Gee, Dave; your glasses are neat. I can see through clothes with them.

Miss Nancy O'Brien, Medicine's Freshie Queen.

And now, a special surprise—an original skit by two literary giants—us!

Another drink and the whole room will be on its back.

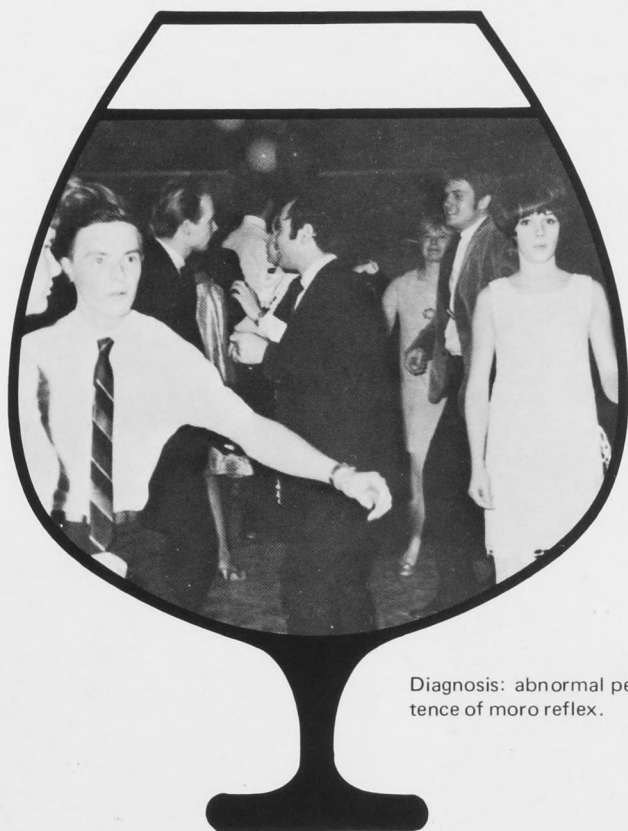

The 1968 Freshie Reception was held September 13 at the Dakota Motor Hotel. A sedate, formal affair, it provided an opportunity for freshmen to meet staffmen and upperclassmen, primarily at the bar, and under the tables. Entertainment was provided by "Les Caribes", the beautiful contestants, Cal and Earl in a traditional and witty skit, and assorted drunks. The highlight of the evening was the selection of Nancy O'Brien, Education, to represent Medicine in the Freshie Queen competition. She was one of the semi-finalists.

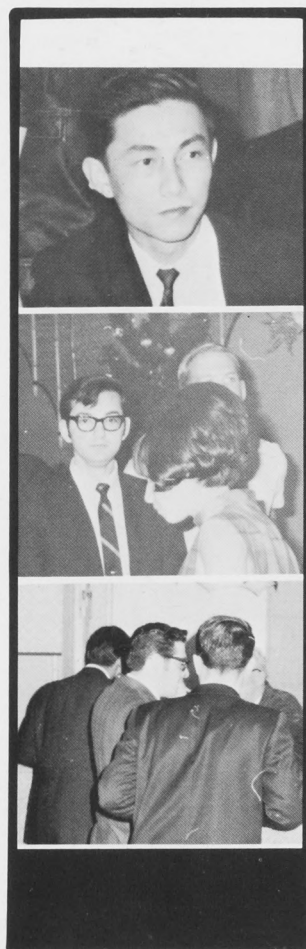

WASSAIL

Look, Arnie—I'll trade you two hydrocarbon pneumonias for a good bronchiectasis.

Diagnosis: abnormal persistence of moro reflex.

Ratman loves to have his tail tickled.

On December 19, the Dakota Motor Hotel was once again laid waste when Medicine held the annual Christmas orgy—Wassail. Students and staff stomped to the music of the Mushroom Band, howled with laughter at a skit put on by—you guessed it, and stuffed themselves at a midnight smorgasbord. Social Chairman Matt Burrell deserves special thanks for organizing a terrific way to forget exams.

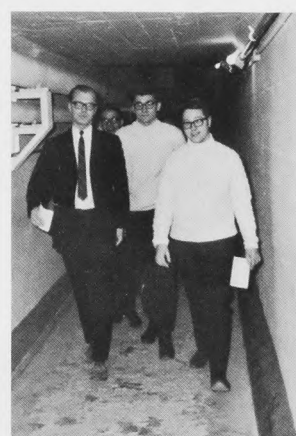

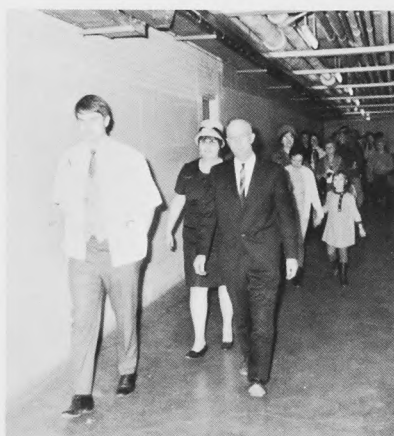

OPEN HOUSE 1969

Dr. George Johnson cuts the ribbon at the opening . . .

. . . and, after checking coats and buying tickets,

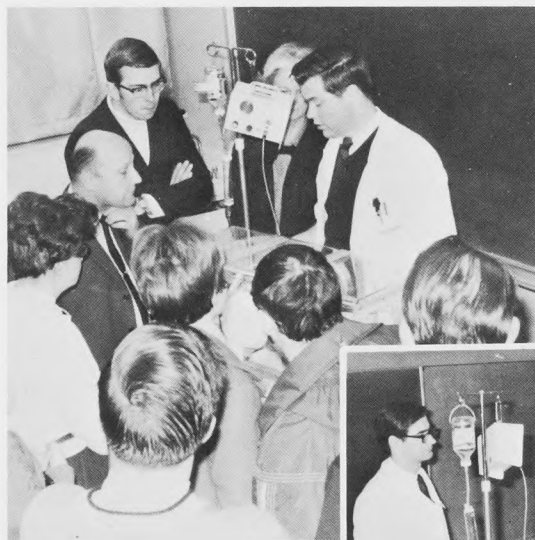

. . . the official party leads off the first of many successful tours.

BEER AND

Masters of Ceremony
Dr. Jim Parrott
Dr. John Tanner

The Judges
Dr. A. Naimark
Dr. P. Dresel
Dr. D. Snidal

I don't know a better way to spend an evening—you looking at us and we looking at you.

I wish my brother George was here.

We recommend capital punishment for all members of the third year skit.

The Old Master.

Special Award
(to the student
who contributed
most to the success of Beer
and Skits):
Mike McNeely
(69)

I would like to thank the person who made this all possible tonight, my mother's only son.

SKITS '69

At this time, I would like to announce my engagement.

CLASS OF '71

- award for best skit
- Skit Chairmen
Ron Elkin
Brendan MacDougall

And now—one for all the nice people.

Ehhhh, what's up, Doc?

Well Richard, on the basis of your sex verification tests, I must advise you to seriously reconsider your forthcoming marriage.

Dr. Founds seems to have the situation well in hand.

CLASS OF '70

- third year's fine attempt at bringing Beer and Skits back down to its proper level
- Skit Chairmen
Jack Rusen
Bill Pope

This must be from Adamson; it's stuck together with a hunk of chewing gum.

Obs and Gynie was never this bad.

Swinging Gerda.

I call myself the "Den Mother" of this Den of Iniquity.

The Immaculate Conception.

Jack, don't worry. I'm sure they won't flunk you for producing that skit.

Our skit with the Dresden Doll over at the Maryland was much better than that.

CLASS OF '69

— Skit Chairmen
Mike McNeely
Cal Gutkin

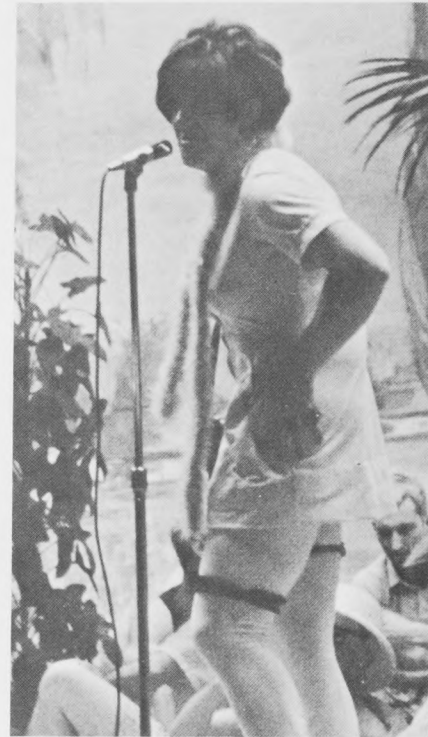

Sing louder you fools; we'll win it again this year.

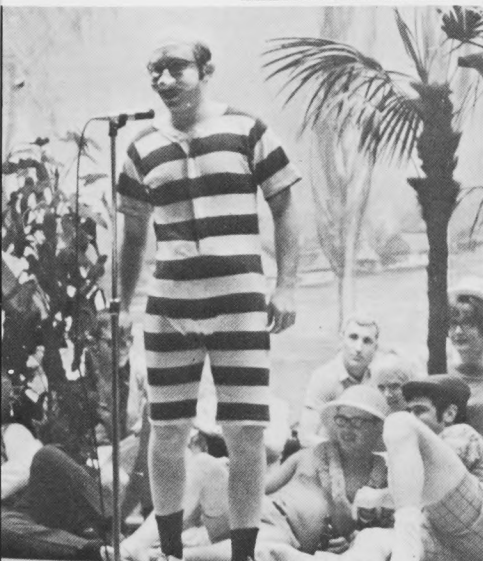

Yes, Virginia,
there really is
something
under this kilt
besides me.

You people just
don't realize what a
girl has to go through
to become a nurse
these days.

BEST ACTOR? —ESS

Earl Goodman

Don't let us interrupt you—we're just here
to see that you don't exceed your limit.

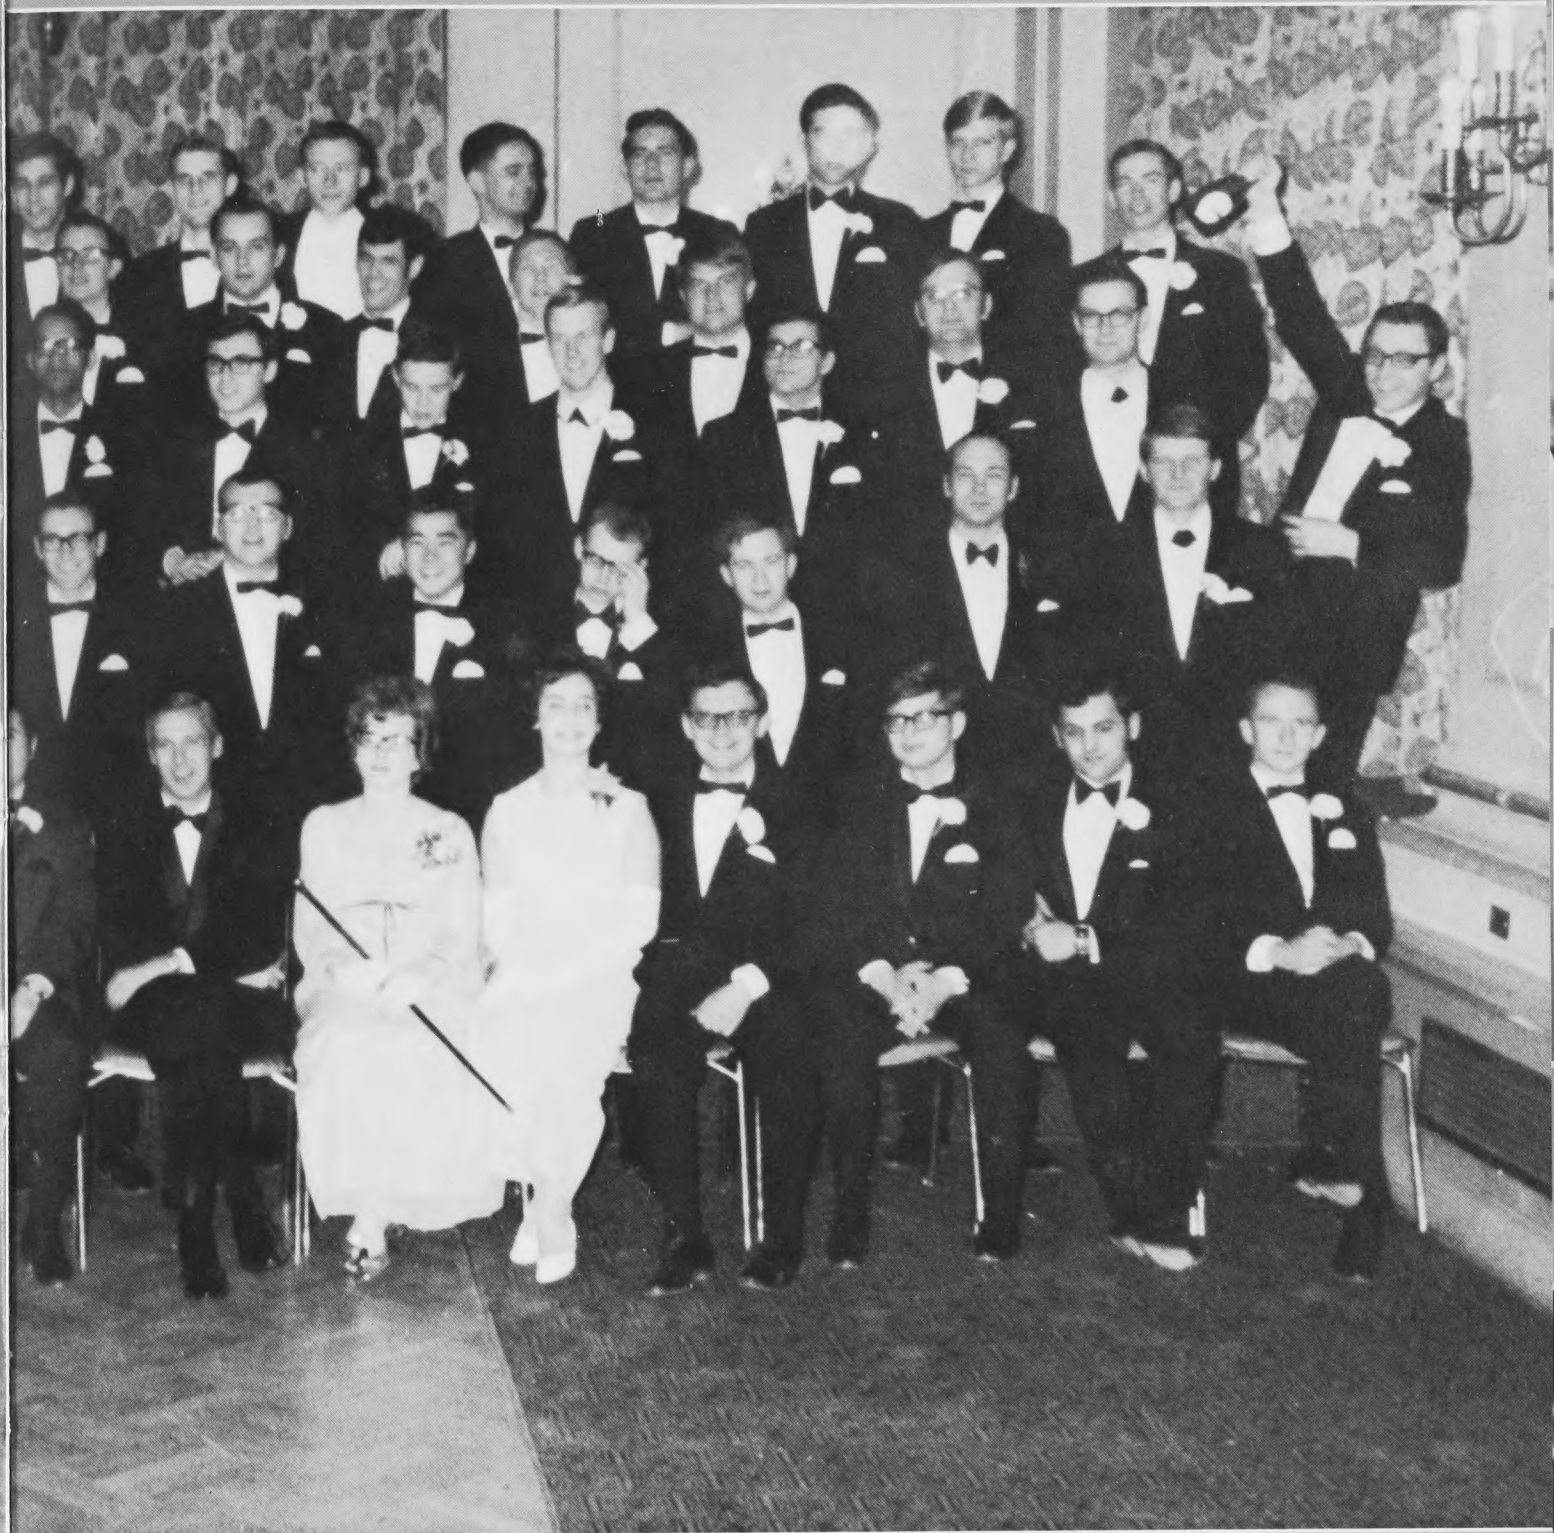

I've had no trouble with diaper rash since I started using Z.B.T.

The

Graduates

Outgoing Senior Stick: Calvin Gutkin.
Incoming Senior Stick: Phil Murray.

Professor of the Year: Dr. P. Constantinidis to Dr. J. Varsamis

Outgoing Lady Stick: Diane Biehl
Incoming Lady Stick: Lorna Medd

The class of '69 Grads' Farewell was held at the Fort Garry Hotel, March 28. The evening began with cocktails at the home of Dr. and Mrs. A.E. Thomson. The cocktails continued at the hotel until Grant Stiver piped in the head table, and the class of '49 which was celebrating its twenty-year reunion. The astonishing number of outstanding doctors from the class of '49 perhaps presaged the future of another brilliant class, the graduates of '69. The evening's ceremonies included the inauguration of Phil Murray as Senior Stick, Lorna Medd as Lady Stick, Dr. J. MacLean as honorary president of the M.M.S.A., and Dr. J.

Varsamis as professor of the year. Vern Becker delivered an excellent valedictory concerning medical students and medical education. The class historian was that humorous and highly-polished split personality Cal Gutkin—Mike McNeely—Earl Goodman—Cam MacArthur.

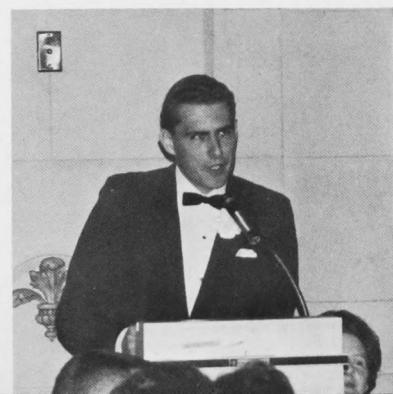

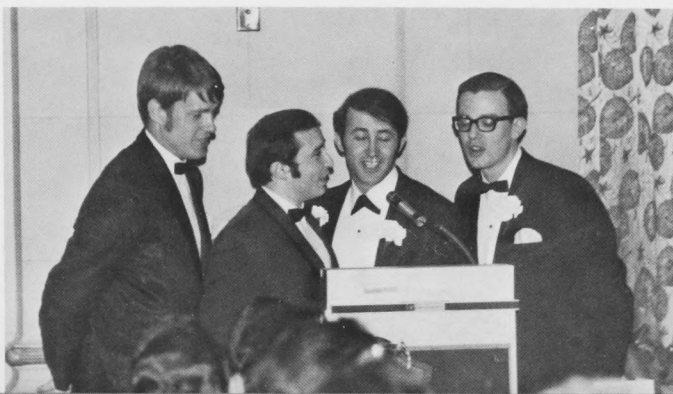

There was dancing 'til midnight at the hotel, and more partying into the wee small hours at the home of Dr. and Mrs. T.M. Roulston.

Sincere thanks to Dr. Thomson and Dr. Roulston for their generosity, and congratulations and best wishes to a terrific group—the class of '69.

Honourary President of
M.M.S.A. Dr. T.M. Roulston to
Dr. J. MacLean (in absentia).

Historian? —Class of '69.

Vern Becker—Valedictorian—Class of '69.

FAREWELL

Surely they're not serving DOMESTIC Camembert!

A woman is only a woman, but a good cigar is a smoke.

I hope this jerk doesn't expect a tip.

Bagpipes—one man's meat; another man's poison.

Sure doesn't taste like tomato juice.

Ed didn't want me to do a strip—but it's my grad!

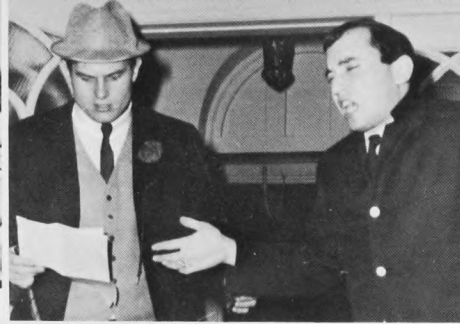

Yeah—Twins!

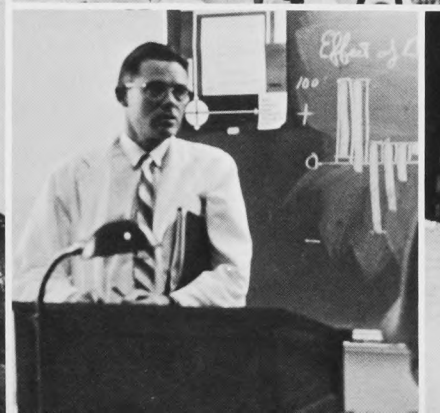

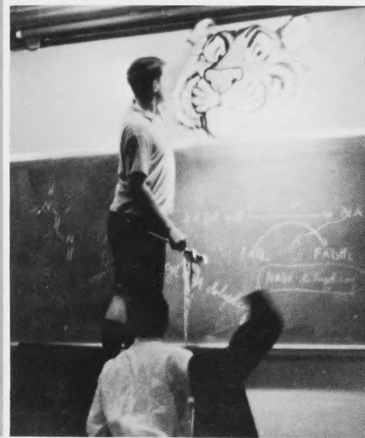

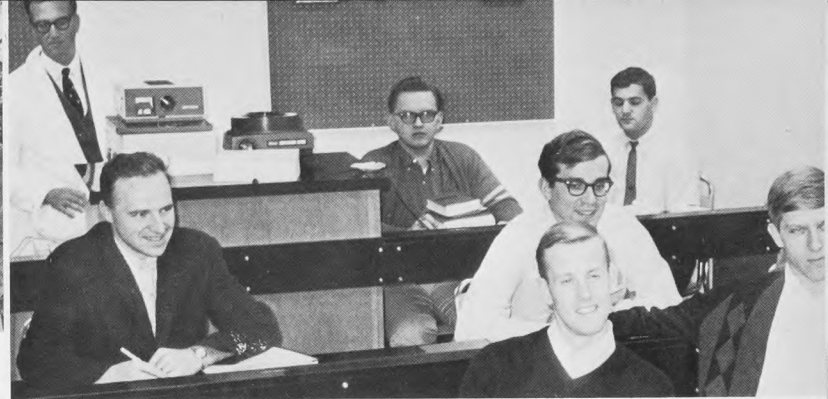

Bears

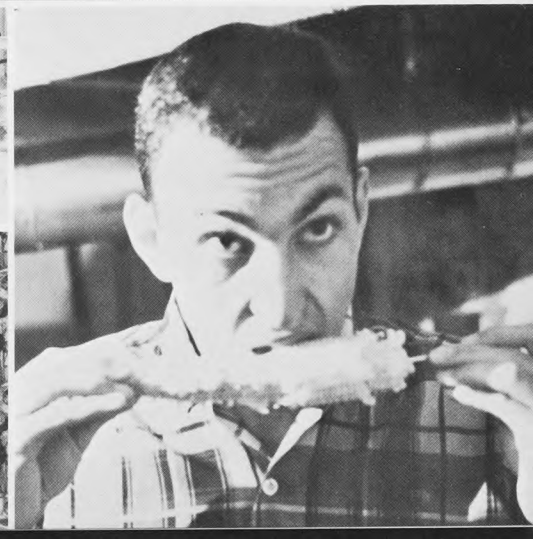

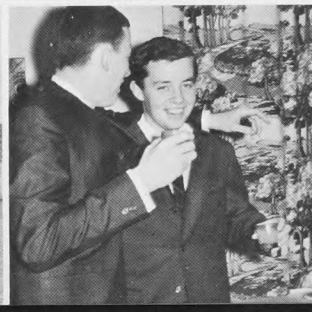

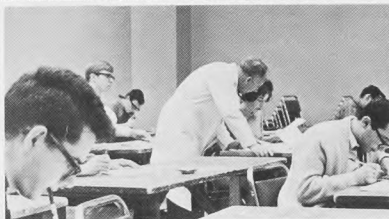

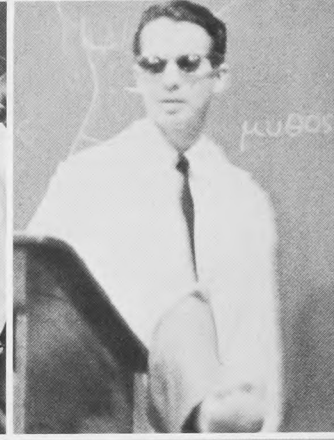

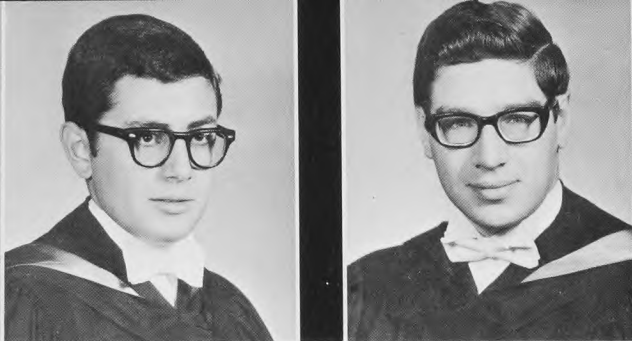

THE CLASS

S OF '69

ANTEL, Jack

Winnipeg

Jack is one of the brains in our class. Nary a physician has escaped the penetrating eye, the scathing criticism or the piercing cry of "The Hawk". Jack was involved in C.A.M.S.I. and was M.M.S.A. Treasurer. He is interning at Montreal General and will specialize in Internal Medicine.

BECKER, Allan

Winnipeg

A.B. has proven that even the destitute can graduate if they really work at it. This connoisseur of fine wine and fine women will be interning at W.G.H. He was second year class president, curled, played football and hockey. He is planning on Internal Medicine, perhaps Neurology, and a life of poverty.

BECKER, Werner

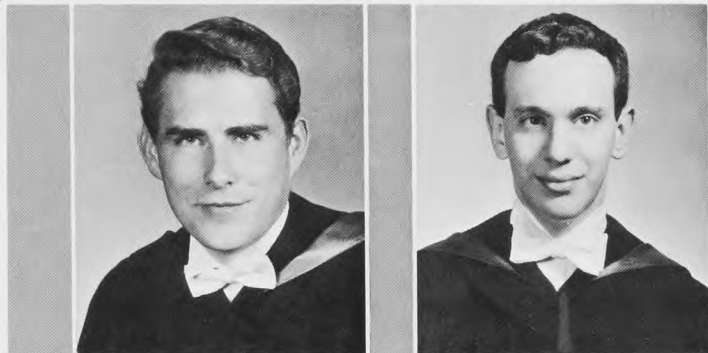

Winnipeg

One summer at Deer Lodge convinced Vern that Psychiatry is THE field. He is a keen skier and photographer but will spend his spare moments interning at W.G.H. Activities included the Journal, the Osler Society, swimming and getting top marks.

BERCOVITCH, Lionel

Winnipeg

Lionel is well-known for his academic prowess and has already completed a residency in Endocrinology at the Mayo Clinic. After internship at the W.G.H., "the Berc" plans to go South (but not by bus!) to complete his training in Internal Medicine. Activities have included class hockey, the Journal, the Osler Society, and the Academic Chairmanship.

BIEHL, Diane

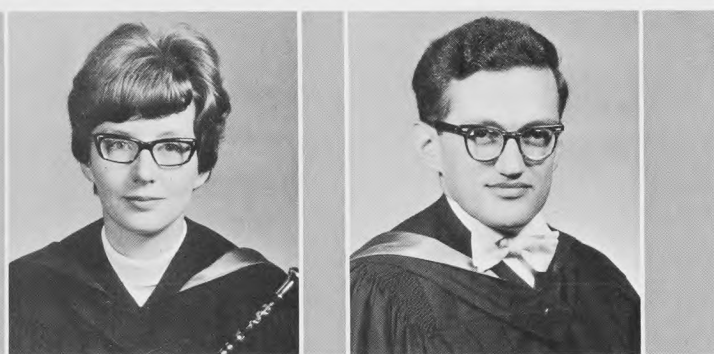

Winnipeg

One could always predict that this red-headed ball of fire would do the unpredictable. She could always be found in the midst of any group plotting a practical joke. She is our Lady Stick this year and also found time to curl and be Assistant Editor of the Yearbook '68. She is interning at W.G.H. and then plans to G.P. or specialize in Pathology.

BODENHEIMER, Monty

Winnipeg

Monty is known for his faithful attendance at Saturday morning classes. He is interning at Sinai Hospital of Baltimore and will go into Internal Medicine.

BON, Lynton

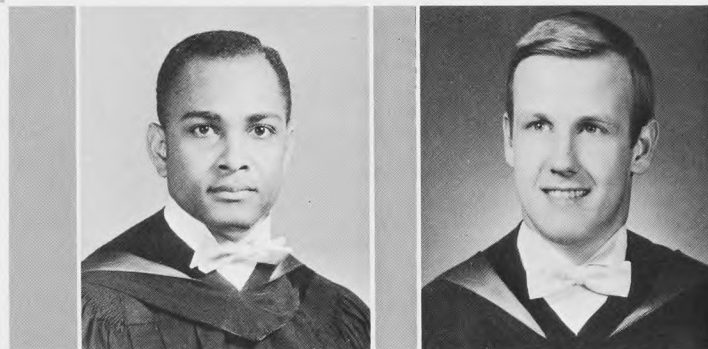

Trinidad

Easy going, slow, frequently absent, Lynton somehow transforms into a ball of energy on the soccer field and at our parties. Bon likes fixing things. For proof, he has rebuilt his car several times, is a proud father, and plans on Surgery after St. B.

BORTHISTLE, Bruce

Winnipeg

"B.K." thinks he has a fiancée (the phantom! !). He also thinks he is going to intern in California, and will wind up as a Surgeon. He tells everyone he played hockey, football, curling, and was M.M.S.A. Special Events Chairman.

BROOMHEAD, Frank

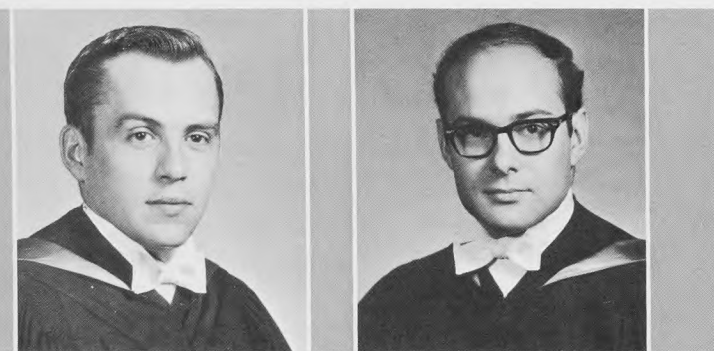

Chapleau, Ontario

Frank could always be found in the Cafeteria drinking gallons of coffee and expounding on his latest theory. He played inter-faculty hockey and acted as chief consultant at the Chapleau General. He is interning at W.G.H. and may specialize in Surgery or practise in his home town.

BURRELL, Matthew

Winnipeg

A "tip of the toupée" to Mat for his enthusiastic work as Faculty and Class Social Chairman and for risking his home for most of our parties. He immortalized N.T. in Beer & Skits '68 and is famous for his recitals. Other activities included curling, skiing, partying and travelling. He plans to intern at Montreal General, work for C.U.S.O., and specialize in Surgery or Psychiatry.

CHOSLOVSKY, Sydney

Winnipeg

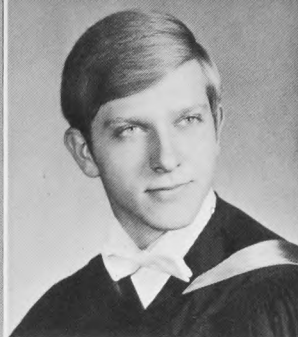

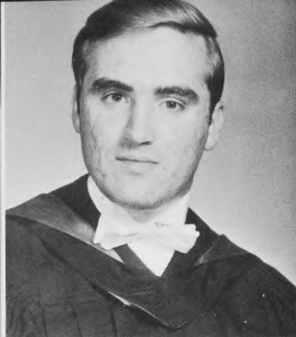

Paranoid Syd has done extremely well in spite of the rather hostile environment in which he exists. After arriving 3 hours late for clinics, he spends the rest of his day trying to muffle his explosive laughter. Syd finally decided on W.G.H. for interning and is considering Psychiatry in the future.

COLBORNE, William

Terrace Bay, Ontario

He goes by various names—Terrace Bay Terror, the North Bay Snapper and sometimes just Bill. We wonder why he decided to stay at St. B. Bill is working on the theory that a little alcohol makes your hair grow, but would you believe sideburns! ! We may rename the Maryland "Colborne's Club." Future—G.P.

CONKLIN, Robert

Winnipeg

Bob was the Senior Resident at Brandon General last summer. This summer he starts interning at St. Boniface, and next year he will do General Practice before deciding on a specialty.

CULHAM, Gordon

Regina, Saskatchewan

This long tall "Texan" is an import from the land of the Jolly Green Giants. Gord plans to intern at W.G.H. and then take Cardiology. He played hockey, is a champion at leap FROG and is always going off to Banff for something-or-other.

DEGROOT, William

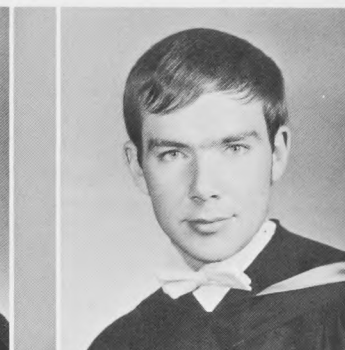

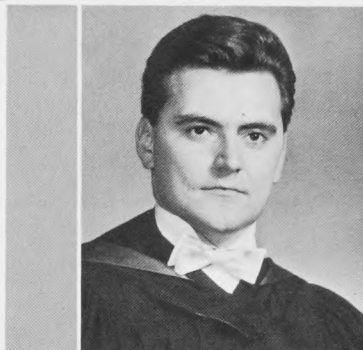

Selkirk, Manitoba

Two summers talking with alcoholics convinced Bill that he didn't really like Psychiatry. He is now thinking of "most likely Pediatrics". Bill will intern at W.G.H. where his wife from Seventh Heaven can keep an eye on him.

DUECK, Ronald

Rosenort, Manitoba

Ron is our tall, fair (skinned) Mennonite whose face lights up for various reasons, especially on weekends. He is interested in skiing, diving, scuba and C.M.S. He is interning at W.G.H. and will go into Internal Medicine.

EGER, Ronald

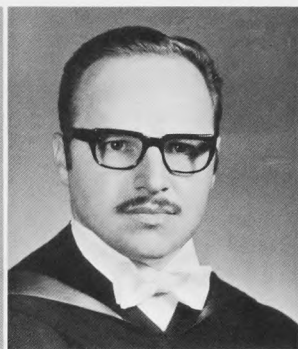

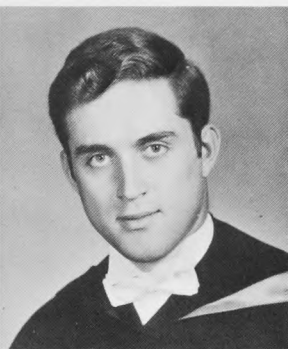

Dryden, Ontario

The "aggressive one" has proven to be one of the highest students in the class. He puts his two meters to good advantage when playing basketball, and when he is quietly conning sweet young nurses. Interning at Montreal General will be followed by training in Neurology or Neurosurgery.

ENNS, Arthur

Carmen, Manitoba

Art is a friendly, sincere, keen type fellow. Everything is important to Art but he is more interested in Obs. & Gyne. He will be taking his big Olds across the border, most likely to California, to intern.

FAST, Margaret

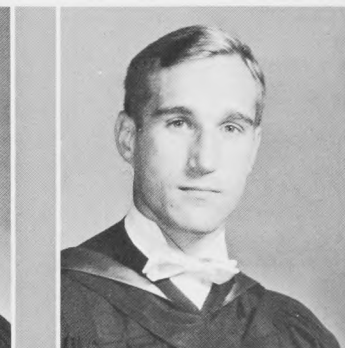

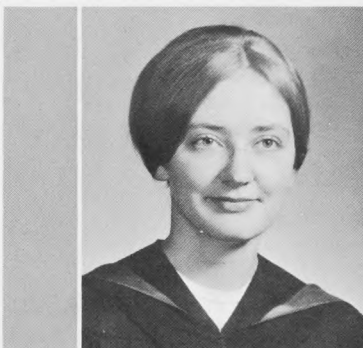

Boissevain, Manitoba

Marg is interning at Vancouver General but after that the future is not clear. She worked on the Journal as co-circulation manager '68 and associate editor '69. Marg also represented our school in Jamaica on the C.A.M.S.I. Summer Field Clinic 1968 and was active in C.M.S.

FEASBY, Thomas

Winnipeg

"Feas the cleas" is from the "Glorious East" and will return to Toronto Western to intern. Tom played Bison football '66-'68, inter-faculty football, basketball and hockey. He was Class President '68 and M.M.S.A. Sports Chairman. He is really undecided, but may consider Neurology for the future.

FRANSEN, Donald

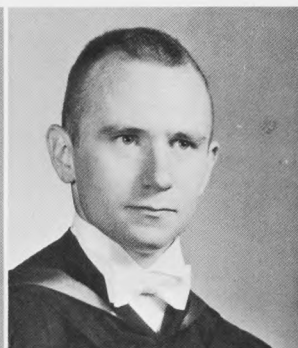

Winnipeg

"Duke" is the latest addition to our class. He is interning at W.G.H. and will become an Internist, perhaps a Nephrologist since he 'piddled around' in Dialysis for some time. One thing we must admit, Don did manage to get himself a good man for a wife.

FRASER, Bruce

Beautiful Basswood, Man.

Compulsive Bruce will intern at Victoria General Hospital, Halifax. He curled, worked on the Journal, and worked at far out jobs up North during the summer. Bruce is still undecided about the future.

FUCHS, Graham

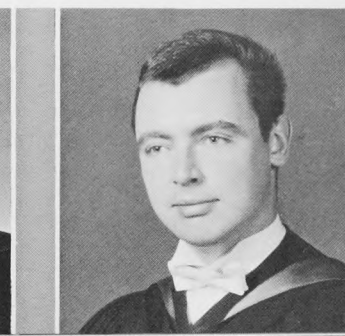

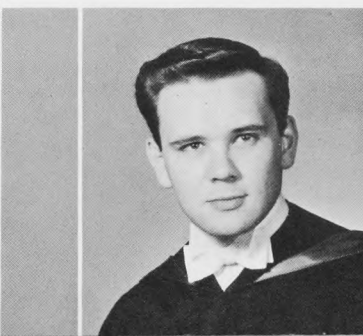

Winnipeg

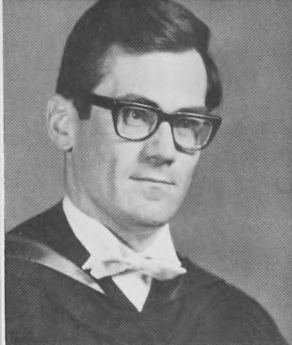

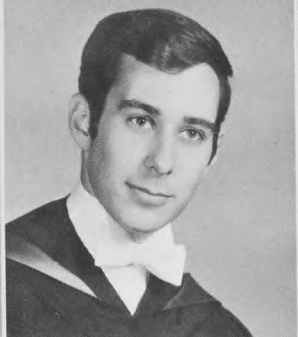

Although Graham had a hand in Obstetrics at the Misericordia, he still casts a fond eye towards Surgery, Psychiatry, and fishing (not necessarily in that order). Internship at W.G.H. should cure his narcolepsy.

FUMERTON, William

Elm Creek, Manitoba

"Fumes" is an engineer from the Big Cattle Country, Elm Creek. After his internship at the W.G.H., he apparently has some vague plans about taking Radiology. Would you believe he did a B.Sc. (Med.) in Radiology? Favourite quote: "Man, is this crummy food!"

GARFINKEL, Paul

Winnipeg

"Racoon" is an Isbister scholar and always one of the top students in our class. Toronto Western anxiously awaits the arrival of "Dorothy's Little Palsy". He later may go into Internal Medicine or Psychiatry.

GILMOUR, Ian

Winnipeg

The "Gilly Dilly" has developed a keen interest in basic chemistry (acids, bases and ESTERS). This very active fellow (D.T.F.A. rep., hockey, basketball, football convener) will intern at W.G.H. and seek a career in Internal Medicine.

GOODMAN, Earl

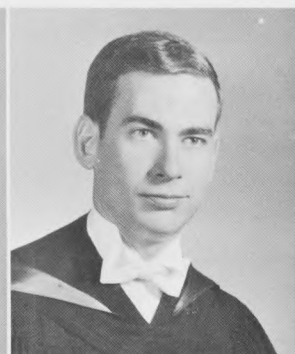

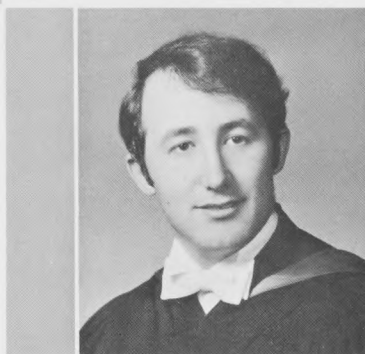

Winnipeg

Good OLD Earl has contributed much to our class spirit, officially as Social Chairman, and otherwise. As "the sexy, horny nurse" he won the "Best Actress of the Year" award in 1968. He is interning at W.G.H. He nose he likes Psychiatry but is constantly being molested by young psychiatric patients half his age (i.e. 20).

GOULD, Donald

Kenton, Manitoba

Don is known for his pleasant personality, extreme practicality and getting his picture in Canadian Weekly. He will intern at W.G.H. and probably eventually specialize in Surgery, Internal Medicine, General Practice, or Psychiatry.

GUTKIN, Calvin

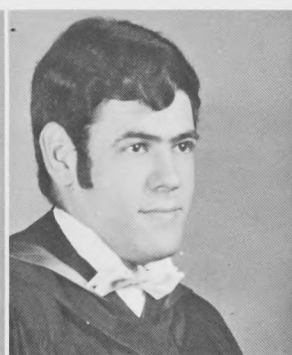

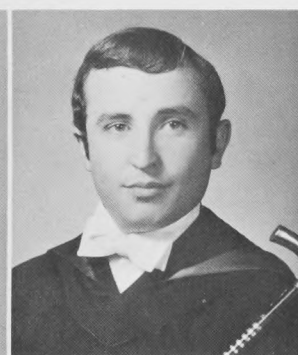

Winnipeg

Cal has been very active organizing, debating and girling. He has frequently displayed his ability as a playwright and actor and "shone" forth as St. Medovy in Beer & Skits '68. He is our Senior Stick this year. (The stick is as tall as he is.) He will intern at W.G.H. and is considering Internal Medicine, Pediatrics or Psychiatry for the future.

HALPARIN, Laurence

Winnipeg

The triple H hails from Winnipeg but plans to head for Montreal for internship and following that, Radiology. Humphrey kept busy during the day with curling, hockey, football, Class Social Chairman and M.M.S.A. Secretary. We understand that he even kept busy the odd night.

HARDING, Godfrey

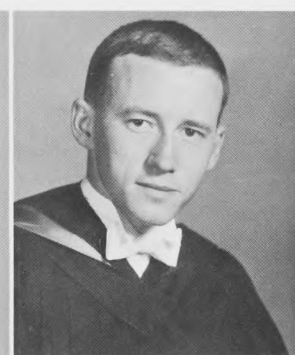

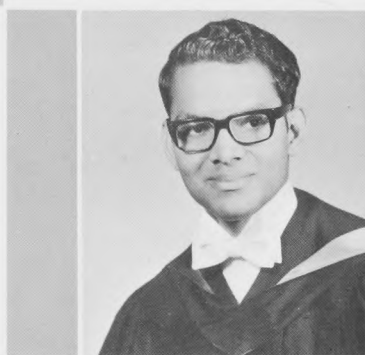

Trinidad

Godfrey sacrificed a sunny climate for the joys of a medical education. Here he gets his recreation playing inter-faculty soccer. He will intern at W.G.H. and may go into Internal Medicine.

HEINRICHS, Richard

Winnipeg

Rick won the Sandoz Prize in medical research in 1967 and published an article in the N.E.M.J. (280:72,1969). An all-round student, he plays hockey, belongs to the armed services, and likes to dabble in the stock market. He will intern at St. B.

HOWDEN, William

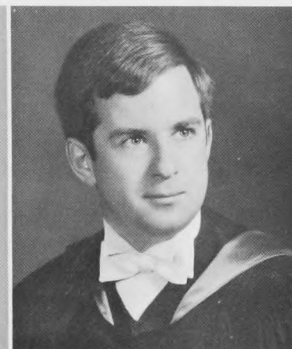

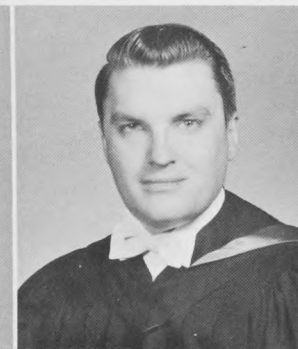

Winnipeg

Bill has big sons, a big car and a big 3-year contract. His activities included inter-faculty hockey and curling. He is interning at St. B. and plans to enter general practice after his stint in the Armed Forces.

KAPROWY, Richard

Winnipeg

R.K. is a cooperative, 24 year old, short, nervous medical student of Ukrainian origin with a 2-year history of acute epigastric pain frequently coming on before meals and relieved by antacids, bland diet and getting engaged. Rick's Ukrainian parties will never be forgotten. He's interning at St. B. and will end up in Radiology.

JORUNDSON, Edward

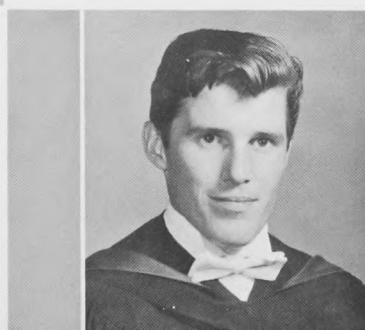

Riverton, Manitoba

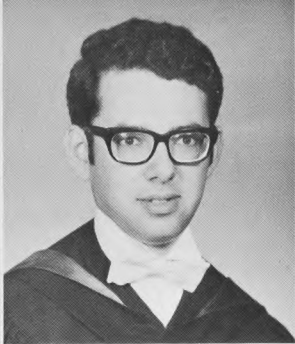

With his wife, Irma, Ed plans to take a 3-year General Practice course at the Calgary General Hospital. His activities included inter-faculty hockey, waterskiing, boating, fishing and hunting. He wants to be a family doctor in Calgary or northern Canada.

JORUNDSON, Irma

Winnipeg

Irma is our blond Hungarian bombshell who used to take pictures before she got married at the end of second year. Now she cooks. She'll probably follow her husband to Calgary and form part of a medical team as long as Family Planning works out.

KATZ, Saul

Winnipeg

Saul is a quiet, friendly fellow whom many of us unfortunately did not get to know very well. Saul worked on Medicine here at the General last summer, will intern here next year, and says he will probably pursue Internal Medicine.

KOHANEK, Frances Lee

Winnipeg

Lee is quite quiet to say the least. She has worked at Municipals and will intern at St. B. She hasn't yet found anything she likes well enough to specialize in.

LANG, Gerhardt

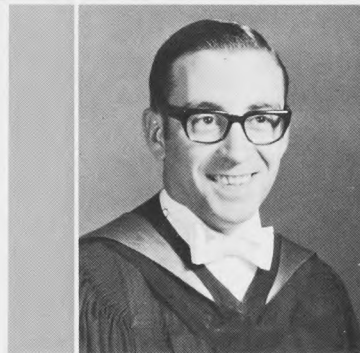

Winnipeg

"Platt deutsch" professes his German heritage by drinking beer and playing semi-pro soccer in his spare time. His smooth technique with the nurses at St. B. never ceases to amaze Ron. Gerhardt plans to intern across the river or perhaps in the States. Future plans are yet undecided.

LEE, Kim-Hin

Sabah, Malaysia

Kim is studying in Manitoba on a Colombo Plan Scholarship which also includes a luxurious 1957 V.W. (with a radio) and free meals at the New Nanking. He will be interning at St. Boniface but is undecided about the future.

LEE, Shu-Chuen Ed

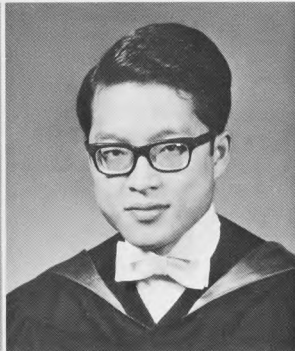

Hong Kong

Another "almost professional" soccer player in Group E, Ed also specializes in working most of the night and sleeping most of the day. When he isn't playing soccer or ping pong, Ed enjoys his photography hobby. Internship will be in Toronto, and Internal Medicine is his first choice for a specialty.

LEVINE, Philip

Winnipeg

Tex, one of our top students, frequently rides his blue palomino convertible down South. His other activities include Freshie Week, curling, girling and international travel. Phil is interning at Montreal's Royal Vic., and will specialize in Internal Medicine.

LINDSAY, Peter

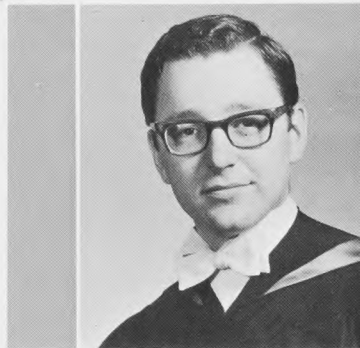

Winnipeg

Pete has probably spent more time in casualty than in classes. He was our C.A.M.S.I. rep., went to Inuvick with C.A.M.S.I., has looked after Concordia, and next year will look after the W.G.H. for the Armed Forces. "Rainbow" is interested in skiing, blind dates, surgery, and ? gold fish? ?

MacARTHUR, Campbell

Hornby, Ontario

Cam will be returning to "The Glorious East" to intern at Toronto's St. Michaels but is undecided about General Practice, Pediatrics or Surgery. He is small, quiet and shy and has a poor sense of humor: that's why he is called the "Water Buffalo". He successfully played Gemmell, Petter Wabbit Dweasel and Santa, without padding.

MacKENZIE, Roderick

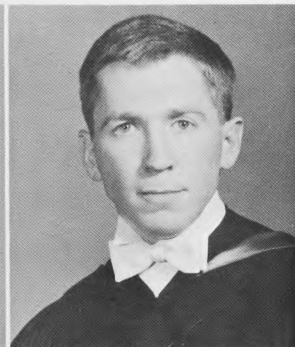

Winnipeg

"The Rose" would often let everyone know he was present. Originally from St. Norbert, he has now moved to the big city and will intern at W.G.H. This cool "CAT" was common room chairman, and also played football, hockey and curled. He thinks he can see his way through Radiology.

MATSU, Eddie

Summerland, B.C.

Genial "Narc" is a former trumpet player, water skier and fisherman. Well known as chief surgeon at Grace Hospital, Ed's future lies in marriage, a U.S.A. internship and then Surgery.

MAZER, Murray

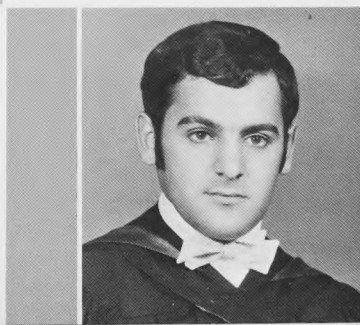

Winnipeg

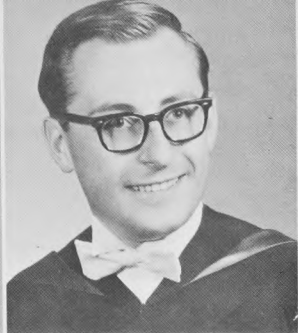

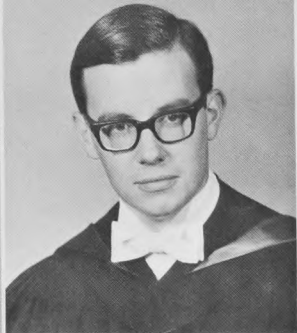

S.F.U.G. would rather reproduce than think. The Maze sold xeroxed journals, worked in the library, and did E.N.T. histories to help pay his way through med school and to Europe. Murray chose the Jewish General in Montreal for skiing, but after that he's "very undecided".

McFARLANE, Bruce

Winnipeg

A tumultuous four years of Medicine have somewhat changed our United College non-conformist, but haven't dampened his desire to become a Psychiatrist. Bruce went to Jamaica with C.A.M.S.I., and was involved with the Osler Society and drug addiction discussions. He is interning at Toronto General.

McNEELY, Michael

Victoria, B.C.

Included in our versatile Class President's many talents are composing songs, writing award-winning skits and sounding more like John Moorehouse than "Manly John" himself. Mike plans to intern at W.G.H. and then pursue his interest in Biochemical Medicine. We expect that his first paper on "The Diagnostic Significance of the E.S.R." will be published in 1972.

MOROZ, Stanley

Winnipeg

Stan plays a mean accordion, was active in curling, and worked summers at Children's. He plans to intern at St. Boniface and specialize in Pediatrics.

PATRY, David

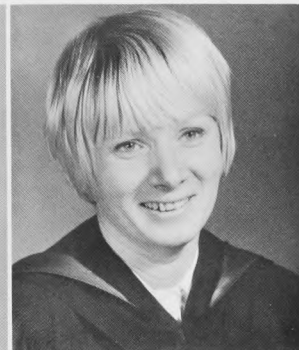

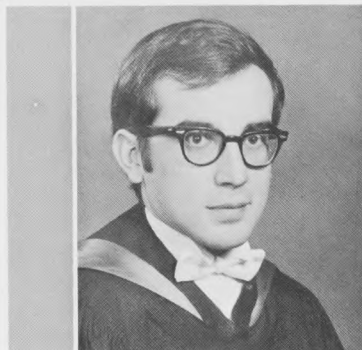

Winnipeg

Dave was a real swimmer in first and second year. He sunk after second and has since repeated second and third year. Next year he will take fourth year and intern at W.G.H. He is interested in Internal Medicine and canaries.

PAVLIN, Janet

Winnipeg

The "Sex Symbol" of the "Class of '69" has nicer legs than Cam MacArthur, skirts shorter than her clinic jackets, a sharp wit and friendly smile. She is famous for leaving exams early. Jan is interning at W.G.H. and may decide on General Practice or Internal Medicine unless some little thing comes along and decides the future for her.

PUE, Alexander

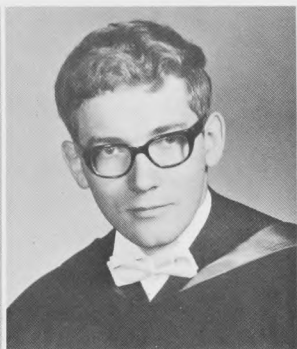

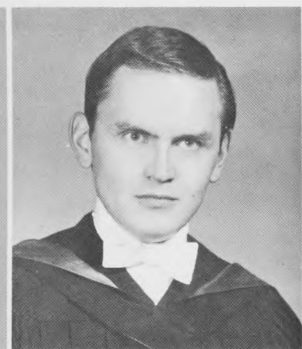

Brandon, Manitoba

While in Medicine, Alex worked on the Yearbook and Journal, and enjoyed C.M.S., skiing, scuba, photography, hunting, loud jokes and his 1941 Plymouth. He acquired a deep tan in Jamaica, and if he graduates, will intern in California, work up North, and then spend some time in a developing country before ending up in Psychiatry.

RAYNER, Harry

Winnipeg

A distinguished yet modest student, Harry was the first Nickerson Award winner as well as our class gold medal winner in Biochem and Physiology. Well-known for his beer drinking ability at the Maryland and the Med. Frat., Harry will continue at the W.G.H., and then do post-grad work in Internal Medicine.

RIDDELL, David

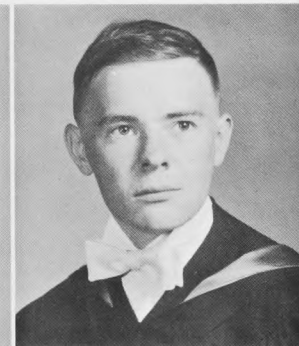

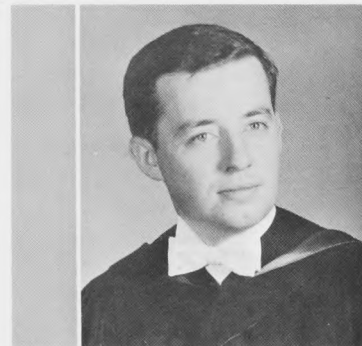

Winnipeg

Dave is well-known for his smile, his Mustang and his high-rise apartment. After internship at St. B., he plans to set up shop at the bottom of a ski slope. He suffers from severe photomania.

ROSS, James

Longlac, Ontario

The Longlac Leaper is a passionate, high-spirited, LOUD Bomber fan. He was associated with hockey, football (as waterboy), curling, and was our Class President I. Lanoxin Jim is interning at W.G.H. because he likes its nurses' residence. He plans to become a Surgeon when he grows up.

SCHROTH, George

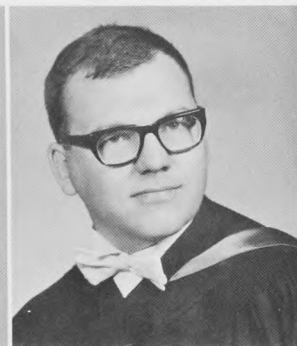

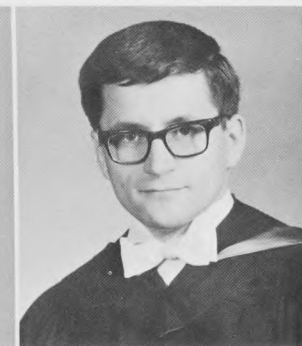

Winnipeg

"Scroth", a happy-go-lucky, wise-cracking heel-clicker from Stuttgart is interning at W.G.H. He played inter-faculty hockey (once was enough!) and worked on the Journal. He skis, plays the trumpet, drives his 2 cars like a maniac and dabbles in real estate. He plans to enter General Practice.

SHAMAN, Edward

Winnipeg

Winnipeg's first Ukrainian is well-known for Sports Weekend '68. He is kept busy weekends, cooking, bartending, telling Polish jokes and just being a great guy. After interning at St. B., he plans to have a general practice in Poland.

SHANE, Marvin

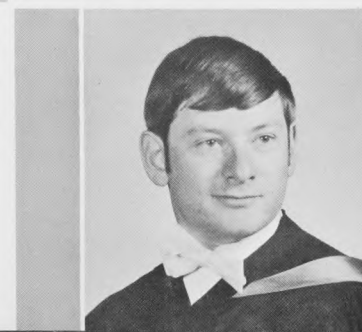

Winnipeg

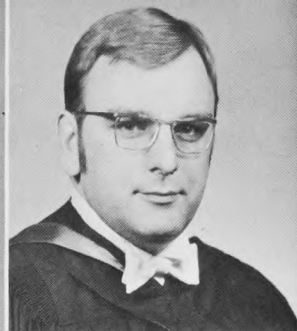

Marv's from W.K. where the barbers are scarce. Shane's main theory is that one man has too much libido for one woman, but he has difficulty proving it. The future holds much for Marv—internship at St. B., Emily, and ? ? Dermatology.

SIMMONDS, Cheryl

Winnipeg

This sharp-witted, congenial member of '69's "Group of Seven" served as the Journal's circulation manager '68, and made time for skiing and curling. After holidaying in Brandon and working hard in Montego Bay, Cheryl had a deep tan and a well-stocked liquor cabinet. Her definite plans extend only as far as interning at Montreal General.

SIMONS, Estelle

Winnipeg

Estelle Davies polished off 1968 by getting "Simonized". Besides courting Keith, Estelle was co-editor of the Journal this year and went to Jamaica with C.A.M.S.I. to see what their hospitals were really like. Estelle is going to Vancouver General to intern and then may consider Pediatrics? ? ?

SMITH, Robert

Winnipeg

"Big Boy" to Shane is fixated on blondes and one in particular—his wife. Easy to recognize with his sideburns and Blumenthal-type glasses, Medicine's answer to Frank Rigney is an ex-Bison and also indulges in inter-faculty hockey and football. He will be joining "the crew" at St. B. and perhaps look after kids in the future.

STEINBART, Murray

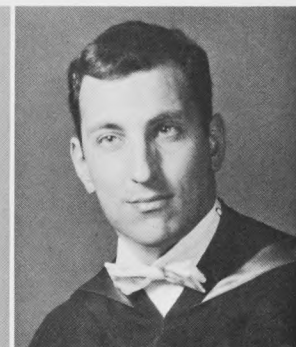

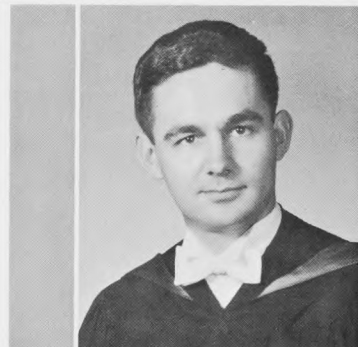

Winnipeg

Murray is a staunch supporter of the Winnipeg Symphony and buys an opera record every week. He helped out with the Yearbook and some terrible skits. He has firmly decided on a career in Psychiatry, and will intern at W.G.H. where his ulcer can be properly cared for.

STOVEL, Carl

Winnipeg

This wild, uncontrollable maniac was often heard humming "The Maple Leafs Forever", "Marching to Pretoria" (or Cold Lake), the theme to "The Apartment" or to "The Fox". Will St. Boniface be able to control our sports' chairman and hockey convenor's passion for work? The Armed Forces can, I'm sure.

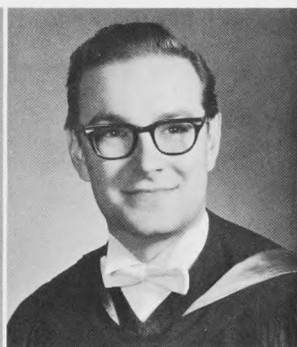

STRATTON, Timothy

Winnipeg

Tim worked in the Wheat City in Psychiatry but says he wants to be an Administrator for Medicare. He was involved in intramural football and basketball and frequently frequented Pavlin's Place Tuesday mornings. Tim is interning at St. B. but he will probably arrive late as usual.

TARASKA, Vincent

Tall, dark and fertile Vince is interning at W.G.H. He is the proudest daddy in our class with 3 delightful daughters. His plans for the future include Internal Medicine and at least 3 sons.

TAYLOR, Ross

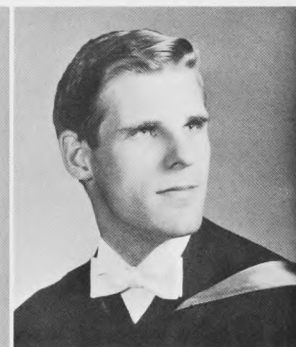

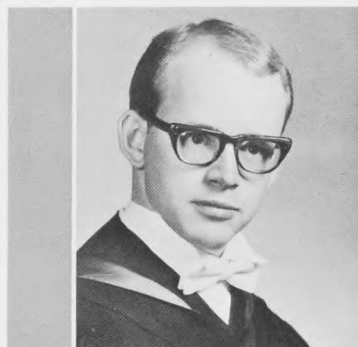

Winnipeg

Ross, our big fraternity man, is interning at Montreal General. His many activities included Sandoz Award '67, Yearbook Editor '68, Student Council '67-'69, Theta Kappa Psi '67-'69, Nurses' Residence '69, hockey and curling. His favorite theory is that it is 7-Up, not rye, that gives him a hangover. He plans to study Gastroenterology.

TOEWS, John

Steinbach, Manitoba

Emerging from Steinbach several years ago, John is famous for his tabetic gait and bizarre humor. After interning in St. Boniface, "Marfan" will pursue Psychiatry or Internal Medicine.

UNGER, Philip

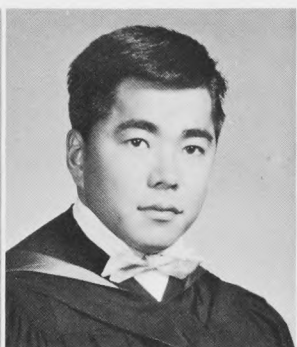

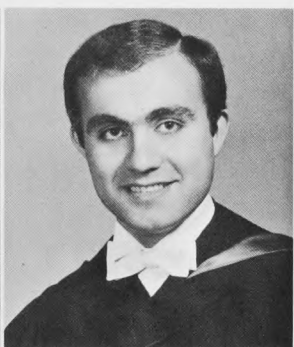

Winnipeg

Phil, a man of the world, is group E's authority on Europe and the Near East. Phil's sly sense of humor and congenial manner insures attentiveness during his clinic presentations. After surfing and interning in California, Phil plans to specialize in Internal Medicine or Psychiatry.

URANO, Garry

Winnipeg

"Broadway Joe" is mainly interested in handball (formed the weaker half of U. of M. Handball Double's Championship '68), football and basketball (convenor). Does a little medicine on the side and after internship at W.G.H. plans to take Surgery. Oh yes, he spent 2 years on the yearbook staff.

WARRIAN, Keith

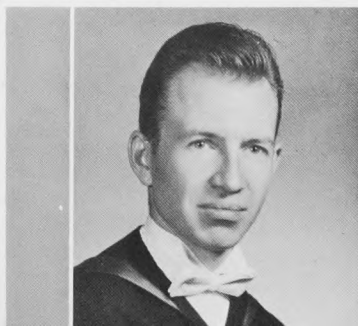

Dauphin, Manitoba

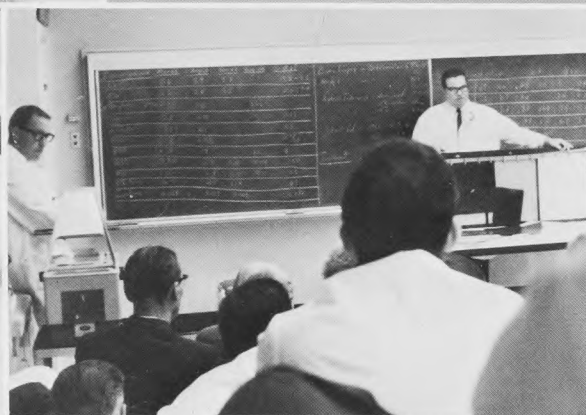

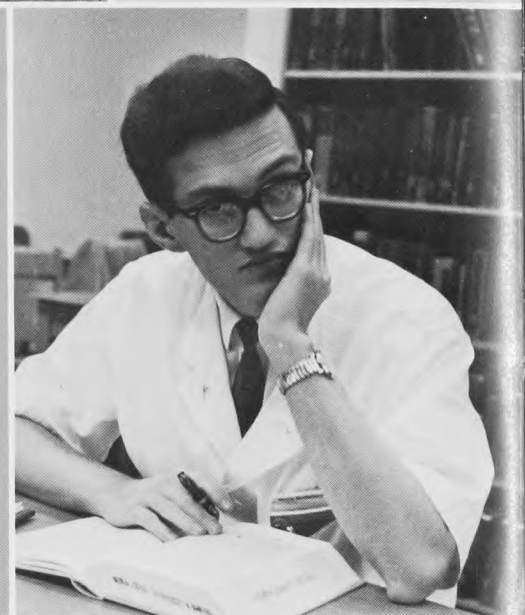

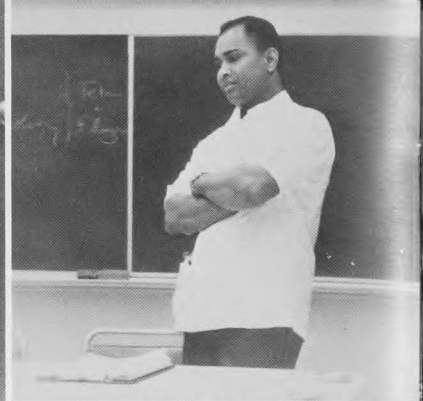

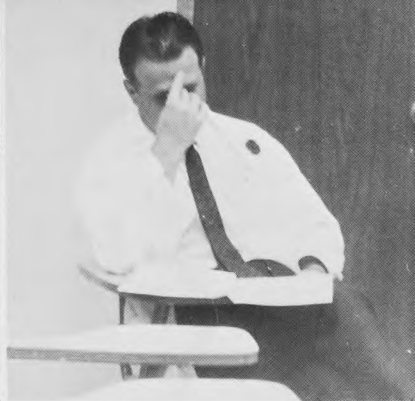

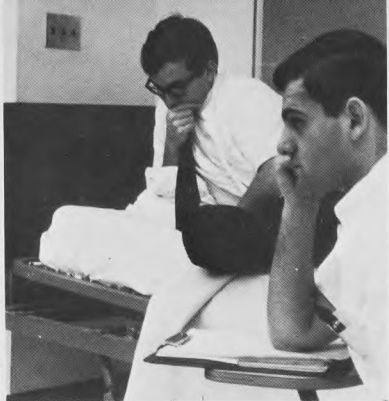

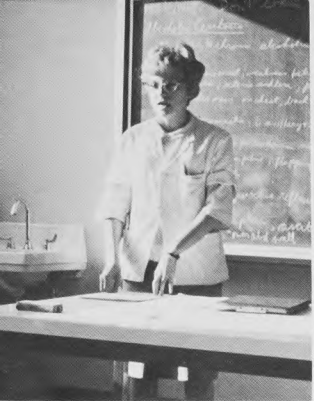

Dauphin's answer to Danial Boone in Colborne's left-hand man. Wonder what goes on in that bachelors' pad at the Three Nuns. He has a wide range of interests ranging from Med. Frat. to Taquela to Taquela. He is interning at W.G.H. and may go into Surgery.

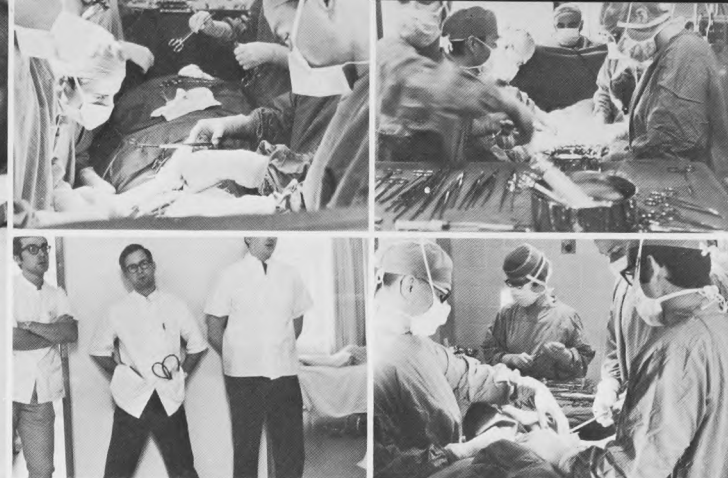

ZEE, Kok Onn

Singapore

Zee comes to us from Singapore. He was an Alexandra Wright Hogg scholarship winner, and supplemented his medical studies with chess and extra reading. Zee will intern at W.G.H. and then perhaps go on to Internal Medicine.

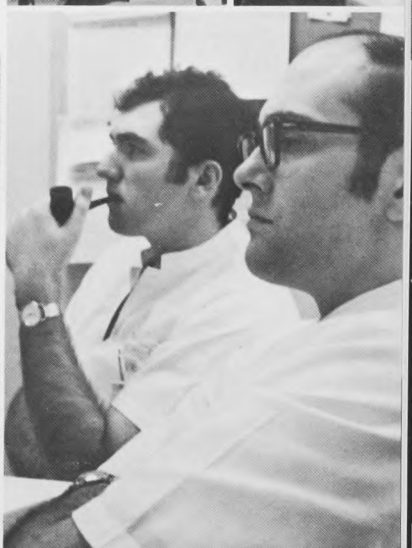

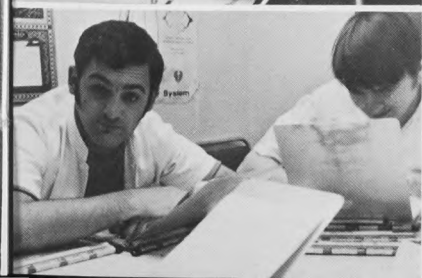

OUR FOUR YEARS

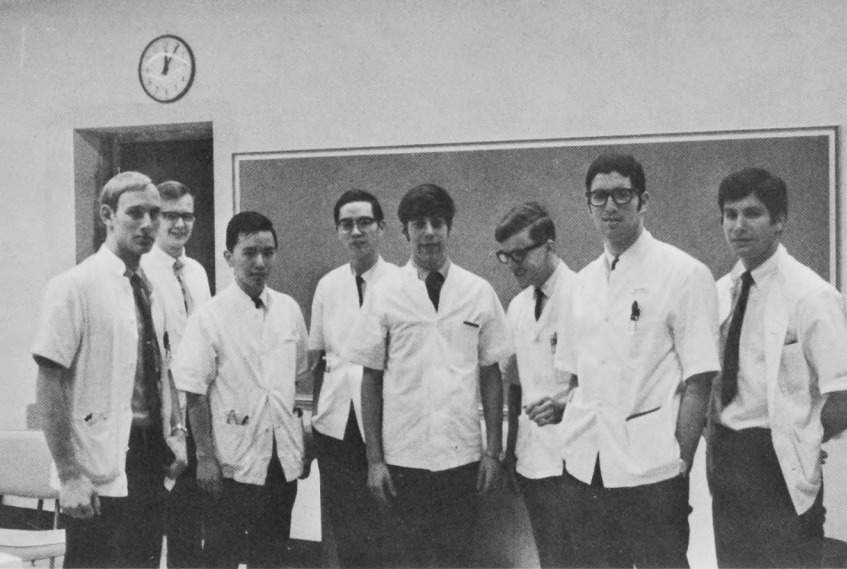

OUR FOUR YEARS IN MEDICINE

When we glance at the first of the four pages of candid in this section, it becomes very easy for us to remember how we entered First Year Medicine; frightened, uncertain, and yet eager to confront the academic giant which stood before us. The second page helps us recall how we stepped much more confidently into Second Year, prepared to tackle Bacteriology and Pathology and anxious to be exposed to the art of Physical Diagnosis. On the third page we can see ourselves as a group of Third Year students, the neophytes of the hospital wards, endeavoring to prove that we deserved our clinical jackets. And now, here we are, having completed Fourth Year, ready to receive our M.D.'s and prepared to meet the challenge of internship and future practice.

These last four years have probably been the most rewarding of our entire lives. Never will we forget the friends that we have made, and the good times that we have had together. Always we shall remain indebted to those who have dedicated hours of their professional time to help prepare us for our future as doctors. We are proud to have been a part of the "Class of '69", and we know that the "Class of '69" has been proud to be a part of the Manitoba Medical College. To the undergraduates we say "Good Luck", to the teaching staff we say "Thank You", and to our fellow graduates we express our wishes for a successful future, and our gratitude for making the last four years so worthwhile.

CAL GUTKIN, DIANNE BIEHL,
SENIOR AND LADY STICK

THE PENINGS

Before man and God, I
pledge allegiance to . . .

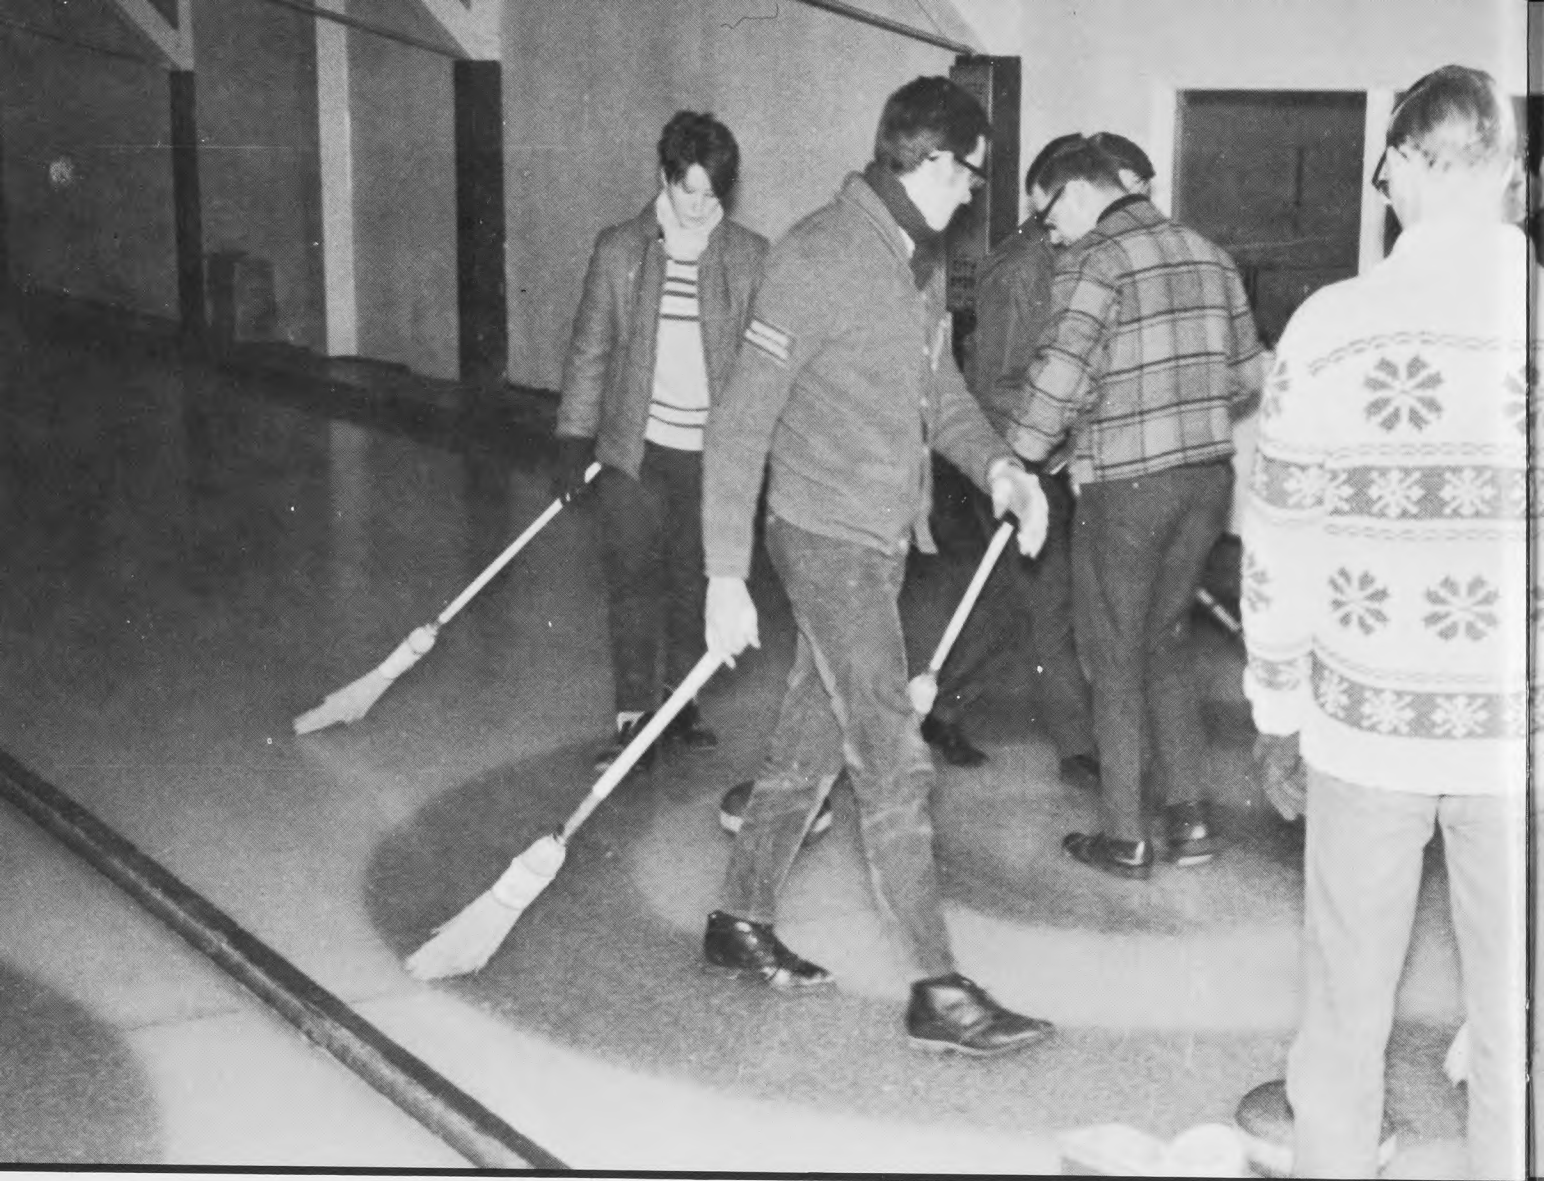

You see, it's this way, Terry.

Of course, I remember how to
cha-cha!

Well, if the Prime Minister can . . .

Athletics

SOCCER

This year the soccer team, with great enthusiasm, remained undefeated through the regular season and was successful in winning the division championship. This was gratifying, after having been defeated in the finals in the past three seasons. Team captain was Ken Kristjanson. High scorers were Leo Oates, Ching Fon Chin, Cliff Corman and Lynton Bon.

Bon leads the Medicine attack.

BACK ROW: Francis Kwan, Geoffrey Harding, Rudy Ramchandrar, John Driscoll, Jim Beckstead, Cliff Corman, Neil Kay.
FRONT ROW: Bill Bowie, Leo Oates, Ching Fon Chin, Ken Johnson, Ken Kristjanson, Lynton Bon.

"Maybe I shouldn't have used my head to block that shot."

"Give me that ball—or else I'll be angry with you."

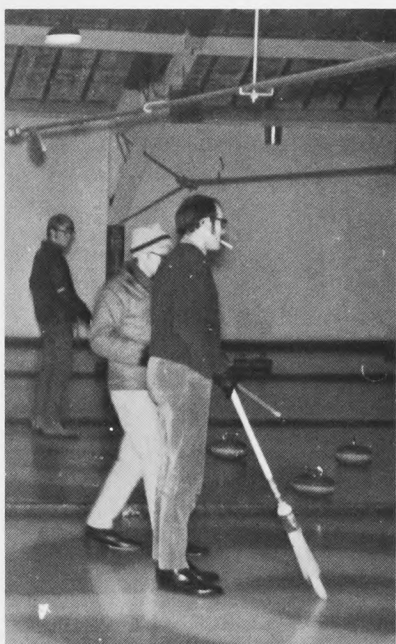

With legs like that, he should be deported back to England.

Ferguson vs. McDougall—"Battle of the Giants? "

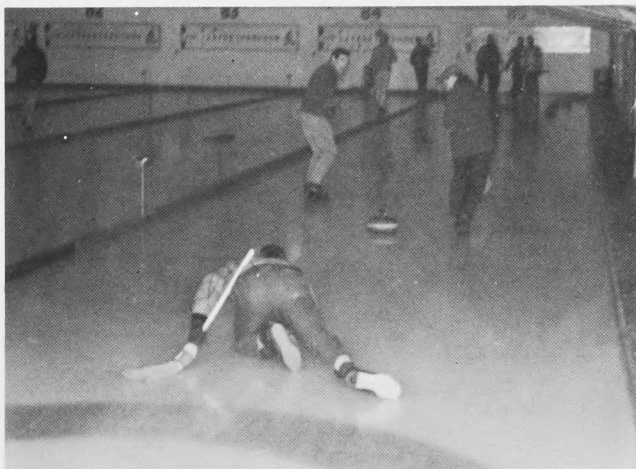

Humphrey is going to put it on the Button.

Johnson and Thomson holding their
..... "brooms? "

CURLING

The 1968-69 curling season got off to a fast start with Brendan McDougall of second year jumping into the lead. He unfortunately fell into a slight slump and Halparin and Ross (the same Ross that curled last year?) edged him out for the lead in the first half. The first and third year skips who were interviewed stated that they were waiting for the second half to make their move.

Poetry in motion—some poem!

Sweep you beggars, sweep!

BACK ROW: Cam MacArthur, Fred Keeley, Bob Smith, Clay Eyolfson, Garth Johnson, Bruce Borthistle, Tom Feasby, Roman Chubaty, Tim Stratton, Lawrie Halparin, Ian Gilmour, Rick Palahniuk, Ron Loewen.
FRONT ROW: Gary Urano, Phil Murray, Jim Ross, Jim Parrott, Vic Wood, Gerhardt Lang, Bob Thiessen.

FOOTBALL

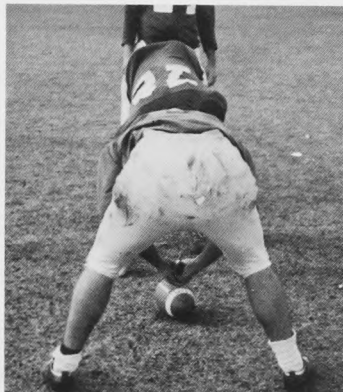

1968 was to have been Medicine's great year in football, and after playing to three consecutive victories in the tough senior league, hopes were high for a university championship. However, overconfidence and mental lapses in two crucial games proved disastrous. The team finished in second place with a 4 wins/2 losses record. A strong nucleus of players will be returning in 1969 and perhaps the dream of '68 will be fulfilled then.

"Oh, oh! Is that the tibia or the femur?"

Urano scores standing up.

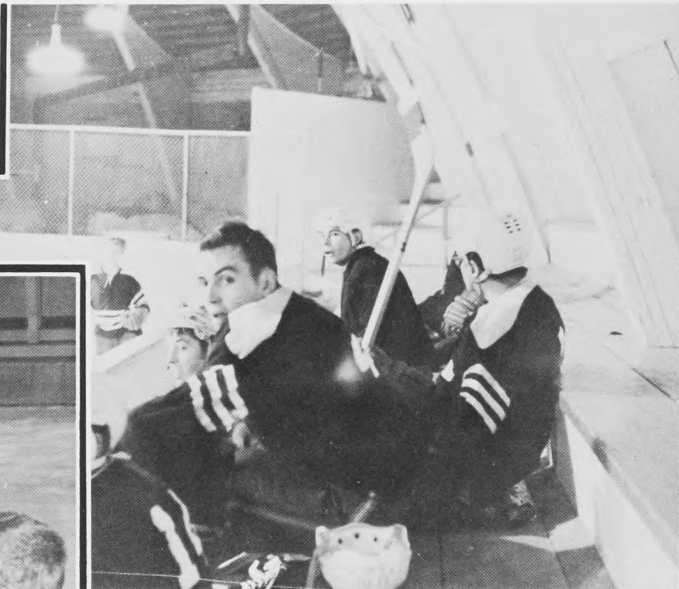

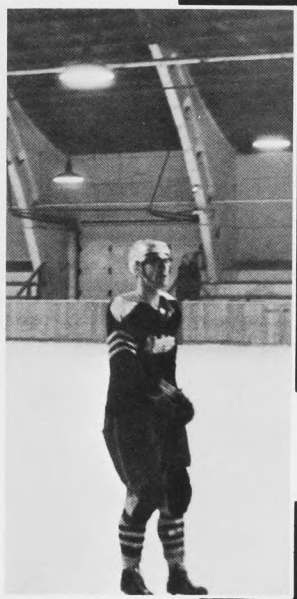

Jim Parrott helped to "beef" up the middle of the line.

Gilmour tackles the wrong man again.

HOCKEY

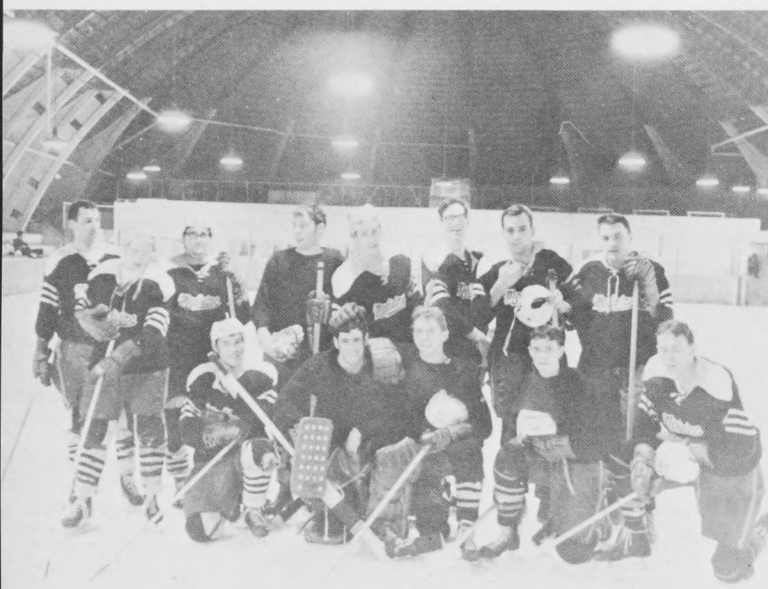

ALUMNI HOCKEY GAME

BACK ROW: Bob Thiessen, Ross Fargey, Mark Young, Andre deRocquigny, Garth Johnson, Jerry Wilson.

FRONT ROW: Grant Stiver, Phil Murray, Jim Parrott, Morris Mymko, Bob Ramsay.

BACK ROW: Carl Stovel, George Schroth, Dave Riddell, Bruce Borthistle, Ian Gilmour, Frank Broomhead, Bill Howden.

FRONT ROW: Ross Taylor, Ed Jorundson, Lawrie Halparin, Rod MacKenzie, Jim Ross, Rick Heinrichs.

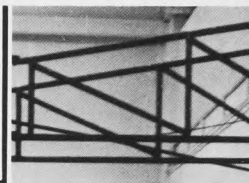

BACK ROW: Murray Cameron, Bob Kippen, Bert Longstaffe, Doug Wong, Mike Shepps, Robin Matas, Irv Raber.

HOCKEY

S W I M M I N G

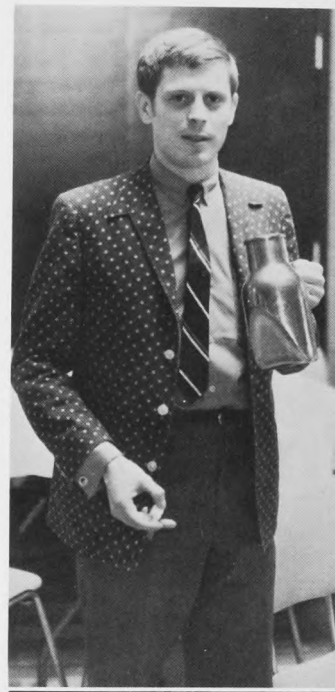

CURLING

V O L L E Y B A L L

: SOCIAL EVENTS

Sports Weekend 1969 was hosted by Manitoba and a good time was had by all. Manitoba cleaned up in the athletic events and emerged the winner of the trophy. The faculties of medicine of U. of A. and U. of S. seemed to enjoy themselves at all the athletic and social events. They went home talking about the Dresden Doll.

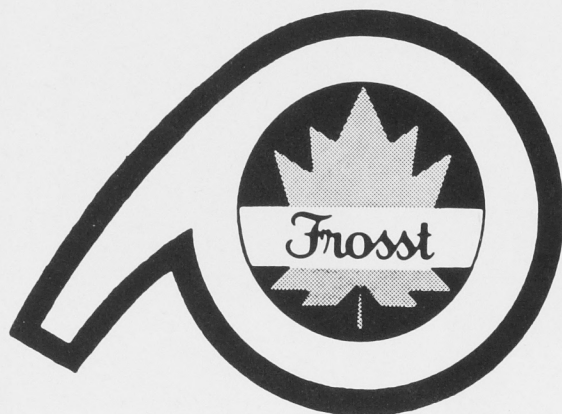

Now that you have reached the last pages of this yearbook, I hope that you have received as much pleasure from it as the staff did in creating it. A great deal of hard work and personal sacrifice of time went into its preparation. There were many people involved.

Worthy of special note for their contributions are Lorna Medd, Wayne Paquin, and Less Ulliyot; the assistant editors. Clay Eyolfson and Bill Gordon did an excellent job supervising the advertising, and Arnold Zeal and his crew supplied the yearbook with a wealth of photographs from which to choose. Alex Pue added a special artistic touch in the fourth year layout and also the picture for the colour liner. Fran Booth, Bill Pope, Lytton Smith and Phil Murray also did a good job on their respective layouts. Thank-you Helen for your patient help also.

I hope that you will value this book, for I feel that it gives a fairly complete picture of the faculty of medicine, University of Manitoba for the academic year 1968-1969.

Sincerely,
Brian Russell (Ed.)
